CHISEL FOOTREST PROTECTOR

Design by Andreas Bergsaker

Follow the illustrated guide on the opposite side of this page along with this written guide.

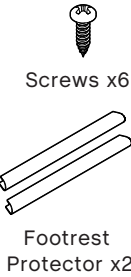

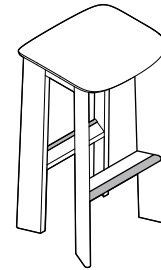

- 1** Turn the barstool upside down and insert the two footrest protectors in the correct position. The pre-drilled holes should match the holes of the footrest protectors.
- 2** Mount the footrest protector using the three screws, starting with the outer screws, then the middle screw.
- 3** Done!

Care & Maintenance

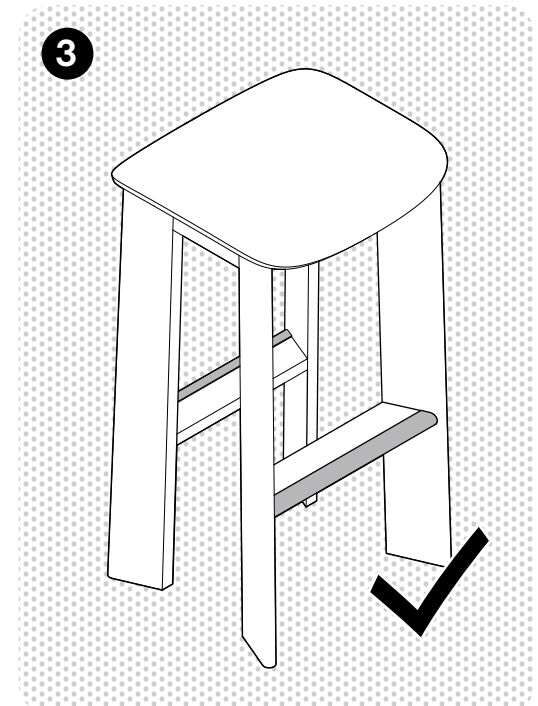

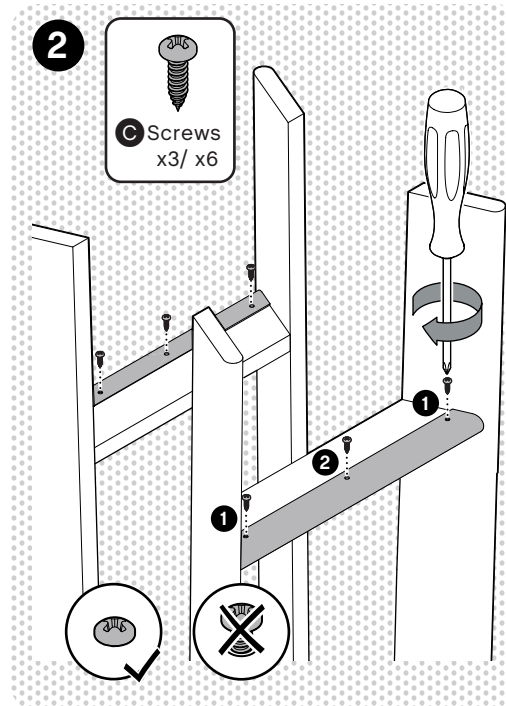

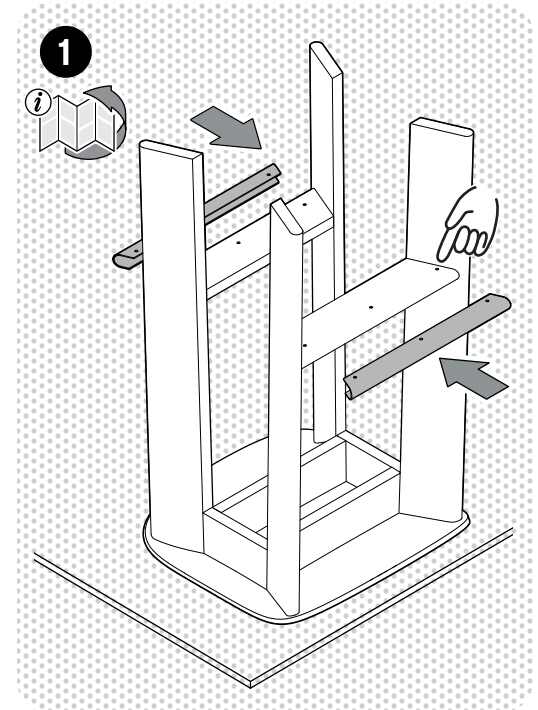

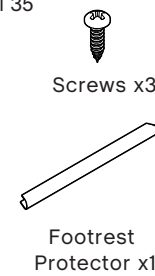

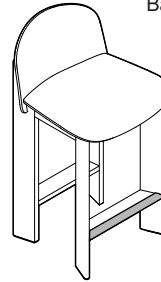

Our Care & Maintenance offers guidance for optimal maintenance of your HAY product. It includes advice and instructions on cleaning and caring for specific materials to prolong the life of your furniture.
