

# 5 REASONS TO TRY

## CORE-FLO™ DC

## CORE-FLO™ DC LITE

Dual-Cure Core Build-Up, Endodontic Post Cement & Dentin Replacement Material

Rx Only

### 1 High Strength

And low water sorption assures a strong foundation for crowns and direct restoratives.

### 2 Excellent Flowability

Void-free flow makes it ideal for post cementation.

### 3 Low Volumetric Shrinkage

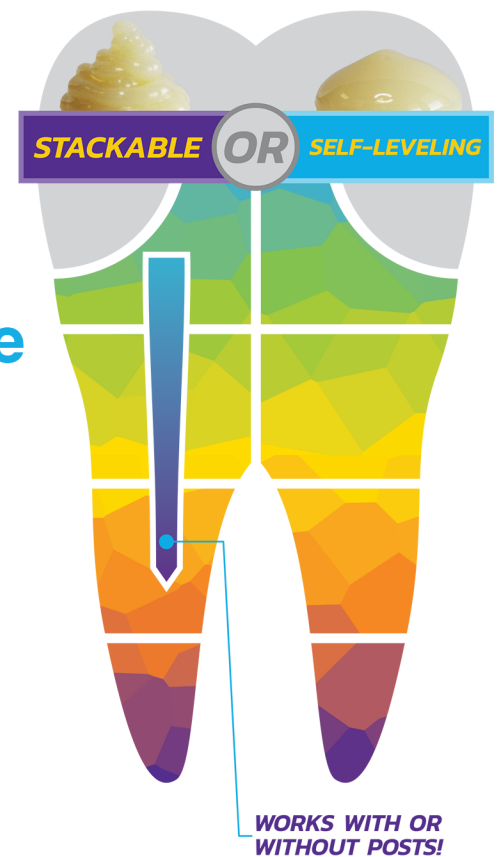

Properties allow it to be used effectively as a dentin replacement material - cuts just like dentin.

### 4 Radiopaque

Formula makes it easy to identify on radiographs.

### 5 Versatility

With dual-cure chemistry that performs equally well in light-cure and self-cure modes.
