To order standard packs, add a -M after the item #.

**FX Series**  
**SXR Series**  
**M – SM – AU Series**  
**B Series**

**FX Series**  
(colorée/matrices  
anti-adhésives)

- La bande la plus longue (buccale au lingual). Idéal pour les préparations longues, ou lorsque l'on utilise l'anneau large vert.
- Cette bande recourbée s'ajuste à l'anatomie de la dent, facilitant l'insertion subgingivale.
- Inclus, une languette pour faciliter le placement.

**FX, SXR, SM series**  
(colorée/matrices  
anti-adhésives)

- Ces bandes ont toutes un enduit anti-adhésif, facilitant l'enlèvement! (La chimie des plus récents adhésifs et composites rendent l'enlèvement des matrices sans enduit plus ardue).
- Le code de couleur facilite l'identification des bandes par le personnel dentaire en clinique et pour les commandes.

**FXH series**  
(argentée, pas d'image)

- La plus récente addition! Une bande matricielle extra ferme.
- Elles ont la même épaisseur que les FX mais construit d'un matériel plus dense, donnant une sensation de fermeté.
- Idéal pour les espaces interproximaux serrés alors que les autres bandes pourraient se frotter facilement lors de l'insertion
- Couleur argentée, courbée et légèrement plus courte (buccale au lingual) que les FX series.
- Inclus, une languette pour faciliter le placement.

**B series**  
(argentée)

- Les bandes matricielles originales
- Plus courte – idéal pour la Pedo

**M** (argentée), **AU** (or) and  
**SM** (colorée/non adhésive)  
**series**

- Toutes les bandes ont la même grandeur et épaisseur.
- Disponible en Argentée (M), Or (AU), Colorée/non adhésive (SM)
