

NOCTIS WHEEL FLOOR LIGHT

Tom Raffield

Product Specification

Noctis Wheel Floor Light

Reflecting metal shines under a suspended filament bulb. Our Wheel Lighting Range blends nature with elegance to put the lustre in illumination.

An arching curve of steam bent oak towers up from a brass base plate. An alluring contrast of wood and metal. Clasped in a polished brass fitting, bright light catches and bounces off its surface. Use it to illuminate specific areas, to layer light and create ambiance in your space. Modern. Refined. Enticing. The Wheel brings sophistication into any space.

Introduce opulence. Amplify.

The Wheel Lighting Range is also available as a table light and a wall light.
