## **DRIVE BASE**

---

# **TRUE MID-WHEEL DRIVE TECHNOLOGY.**

**The Q700 M series shares one drive base that sets a new standard both inside and out. This series seamlessly blends unparalleled indoor manoeuvrability with exceptional outdoor performance, ensuring your comfort, safety, and stability on the most challenging terrains.**

**INDOOR PERFORMANCE**

## **SUPERIOR INDOOR AGILITY.**

**Staying in? Make yourself at home with unparalleled ease of movement. The Q700 M series offers superior indoor manoeuvrability and intuitive driving, allowing you to effortlessly navigate tight, compact spaces.**

### **MOVE ANYWHERE**

Tired of limitations? Whether it's a challenging living room, a busy kitchen, or a narrow doorway, the Q700 M's compact **620 mm** base seamlessly fits into your life, ensuring you move freely without constraints.

### **COMPACT 1100 MM TURNING CIRCLE**

With its **TRUE** mid-wheel drive technology, the Q700 M effortlessly turns on the spot, boasting a compact **1100 mm** turning circle. In contrast, RWD and FWD powerchairs need to 'swing' around on their front or rear drive wheels, resulting in a wider turning circle.

## **OUTDOOR PERFORMANCE**

---

# **BUILT FOR THE OUTDOORS.**

**The ideal companion for conquering the outdoors – experience extended travel range with superior drive performance and feel confidently secure even on the most challenging landscapes and while navigating obstacles.**

## **ENHANCED TRACTION**

The Q700 M's mid-wheel drive technology strategically places the drive wheel directly beneath your seated position, ensuring more weight is on the drive wheel. This design delivers superior traction compared to front or rear-wheel drive bases, providing you enhanced stability and control.

### **UNLEASH MAXIMUM FREEDOM AND POWER**

Experience the thrill of power and speed with the 4-pole high-torque motors, placing control at your fingertips. Standard options of 6, 8 or 10 for ultimate performance. Choose between 60 Ah or 80 Ah batteries to maximize your range, reaching up to **40 km** and unlocking unparalleled outdoor performance.

### **GO ANYWHERE WHEELS**

The Q700 M series is equipped with **14"** drive wheels which offer unmatched performance. Engineered for off-road driving, these wheels conquer the common challenge of getting stuck where others would.

## **ADVANCED SUSPENSION**

---

# **TAILORED SUSPENSION FOR YOUR COMFORT.**

**Say goodbye to discomfort during your drive. The Q700 M ensures an unprecedented level of comfort with independent articulation of each wheel. Coupled with its unique suspension system, navigating obstacles and traversing rough terrain has never been smoother, providing you with a truly comfortable and enjoyable experience.**

## **ALWAYS IN CONTROL**

QUICKIE's anti-pitch technology eliminates pitching when decelerating, meaning you always feel safe and in control. With all your weight located directly above the drive wheel to maximise traction and stability, you've never been in a safer driving position.

### **ADVANCED ALL-WHEEL SUSPENSION**

Experience unparalleled comfort on every journey as the Q700 M's all-wheel suspension effortlessly glides over obstacles and bumps, ensuring you barely feel a thing. Optimising ride comfort, the independent movement of all six wheels empowers the Q700 M to conquer any terrain, providing a journey where comfort meets security.

### **CLIMB WITH COMFORT**

Conquer obstacles up to **75 mm** effortlessly, and revel in a smoother, more responsive ride with revolutionary suspension. The independent movement of all six wheels, including both front and rear, gives the Q700 M the ability to crawl up and down steep obstacles while ensuring all six wheels stay grounded. Maximising comfort and traction, even on gradients.

## C-ME

# ELEVATE AND DRIVE

Say goodbye to waiting around or driving at reduced speed when elevated. With C-ME\*, you can raise up to 300 mm and drive up to 4.8 kph all at the same time! Now you can keep up with your friends at their pace and be at eye-level all with a touch of a button (with no need to stop).

Scan the QR code with your phone to learn more about C-Me Technology with our informative video

## RAISING COMFORT WHEN DRIVING ELEVATED

Unlike other powerchairs, our suspension doesn't lock-out when using C-ME. So you get the same smooth and comfortable ride over uneven terrain, even when elevated! Plus, anti-pitch technology will keep you safe and stable on inclines too.

### STOP SWITCH FOR ADDED SAFETY

There's safety in stopping. Our added remote stop switch allows an attendant to stop a powered wheelchair via a remote from up to **30 meters** away. Operating distance dependent on the environment.

### ELEVATE WHILST DRIVING WITH ASSIGNABLE BUTTONS

Fed up of complex joystick movements or having to stop to use your seat lift? With our **PATENTED** assignable buttons, you can change any button (or assign a second, long-press function) to activate C-ME (even when driving).

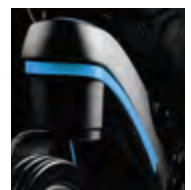

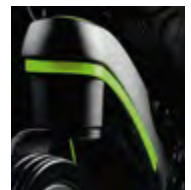

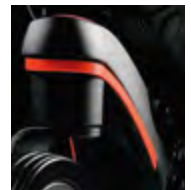

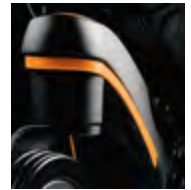

## DISTINGUISHED STYLE

# MAKE IT YOUR OWN.

With the Q700 M series, we've taken style to the next level. With a matt-black chassis finish, hidden wiring and components combined with sharp-tailored upholstery, it's a sleek and contemporary design.

## FANCY A CHANGE?

The Q700 M series also comes with a choice of 7 contemporary colour inlays to perfectly complement its striking matt-black bodywork. Simply replace the colour inlays. Styling your powered wheelchair has never been so simple.

## SEATING

---

# YOUR LIFE, YOUR WAY. SEATING TAILORED TO YOU.

**When it comes to selecting a powerchair, why compromise your lifestyle for clinical needs?**

With three versatile seating systems, the Q700 M series ensures you don't have to! Whether you prefer a chair that tilts and lifts, one that allows you to lie flat, or the option to stand in your chair, the Q700 M series caters to your preferences.

Each seat is prescribed to your dimensions and can be adjusted as you grow. Furthermore, all options come with a comprehensive range of accessories to support your posture, maximising your daily independence.

**SHARED ACROSS THE RANGE**

---

## **CHOOSE YOUR COMFORT ZONE.**

The Q700 M provides a choice of three seating options: **SEDEO PRO**, **SEDEO PRO ADVANCED** and **SEDEO UP**. Select the one that aligns seamlessly with your postural, lifestyle, and budget preferences.

### **TAILORED TO YOUR POSTURE AND LIFESTYLE**

The Q700 M series presents an extensive array of seat accessories, empowering you to personalise your Q700 M according to your unique requirements. Choose from a variety of options, including power functions (lift and tilt, recline, legrests), armrests, armpads, headrests, and your preferred style of legrests and much more.

### **DESIGNED TO FIT YOU**

The Q700 M series is individually prescribed to your precise measurements, guaranteeing the utmost support from your seat. Should your needs evolve, the seating system can be easily adapted, accommodating seat widths from 15" to 22" and seat depths from 16" to 22".

### **REFINED COMFORT SEATING**

Experience the epitome of comfort with the Q700 M series. Our SEDO PRO cushion and backrest contours to the shape of your body for unparalleled immersion that must be felt to be believed. Revel in comfort with the Q700 M series.

**Q700 M SEDEO PRO SEATING**

---

# SEATING ADJUSTED TO YOU.

The SEDEO PRO seating system, is meticulously crafted for a personalised experience. With a highly adjustable seating frame and a wide array of positioning and lifestyle accessories, the Q700 M SEDEO PRO can be completely tailored to provide a precise and comfortable fit just for you.

From £8,450\*

Scan the QR code with your phone to learn more about SEDEO PRO Flexible Back.

\*Base price. Price may vary depending of individual prescription. Price is correct as of 1st January 2024 but may vary, please refer to the order form on [sunrisemedical.co.uk](http://sunrisemedical.co.uk)

## FLEXI BACKREST

Tired of uncomfortable laterals and firm backrests to support your posture? The **SEDEO FLEXI** backrest effortlessly combines adjustable full rear and side trunk support with the highest level of immersion that has the be felt to be believed.

## SHAPES TO YOUR SPINE

Instead of a solid base, the flexible back cushion has 8 adjustable straps that wrap around your back. Where other backrests make limited contact with the spine, the flexible back cushion's layer of soft foam contours to you, providing complete contact, comfort and stability.

## POWERED TO YOUR NEEDS

**SEDEO PRO** puts the power in your hands with a versatile range of functions that can be individually or collectively configured to achieve a near lie-down position:

**Anti-Shear Recline** - Adjust your backrest electronically through the joystick allowing you to independantly reposition yourself throughout the day. The anti-shear mechanism means there is no sliding between you and the backrest when adjustment ensuring comfort throughout use. You can also combine this with power legrests to allow you to be positioned in a near lie down position for greater comfort and pressure relief.

**Lift & Tilt** - Designed for relieving pressure by tilting reward. As well as offering the ability to lift the seat so you can more easily access shelves, cupboards and talk to friends eye to eye.

**Powered Legrest** - Adjust your legrest angle quickly through the joystick for comfort, pressure relief or oedema control when combined with tilt.

## **Q700 M SEDEO ADVANCED PRO SEATING**

# **LIE-FLAT, PARTIAL STAND, AND MORE.**

**Elevate your seating experience with SEDEO ADVANCED PRO, featuring powered memory functions that customise seating positions to your preferences. Effortlessly access your favourite positions, including lying flat, partial standing, pressure relief, and more, ensuring comfort at your fingertips.**

**From £15,495\***

**Scan the QR code with your phone to learn more about JAY SYNCRA.**

### **SEATING THAT REMEMBERS YOU**

Say goodbye to the frustration of manually adjusting each power function on your chair. With the ADVANCED PRO, you no longer have to. Save up to 6 tailored positions, precisely customised to your preferences - be it lying flat, partial standing, standard seating position, or pressure relief. Paired with QUICKIE's assignable buttons, you can effortlessly access these positions with just a touch of a button, making your experience easy and quick.

### **LIE-FLAT AND RELAX**

Experience relaxation with the SEDEO ADVANCED PRO, by going in to full lay flat or relaxed position. Transitioning in and out of recline is made effortlessly comfortable with 180 mm of anti-shear, ensuring your seated posture, headrest position, and laterals are maintained throughout the repositioning process.

### **EMPOWER YOUR EVERYDAY TASKS WITH PARTIAL STAND**

Revolutionise how you access the world with Partial Stand integrated into the ADVANCED PRO seating system. Partial Stand tilts the seat forward, raises the back, lowers the front, and positions the knees below the pelvis. This innovative function enables easy access to tables, cupboards, and other everyday tasks, promoting eye-to-eye communication and providing pressure relief for added comfort.

### **SEATING IN HARMONY WITH YOUR MOVEMENTS**

Introducing a first-class seat meticulously designed to move with you – the patented Biometric Repositioning. Uniquely attuned to the body's movements, this seating system is among the most effective for independent repositioning throughout the day. Experience a consistently comfortable seated position, even after adjusting your seat. This is accomplished by transitioning through an intermediary tilted position, utilising gravity for a seamless realignment of your pelvis in one effortless motion.

## Q700 M SEDEO PRO ADVANCED UP SEATING

# RISE TO NEW HEIGHTS WITH THE Q700 UP M.

Explore life from a fresh perspective with SEDEO UP, seamlessly integrating seating system with the ability to stand at your convenience.

- 6 tailored memory positions
- Seating that mirrors the bodies movement
- Ability to change your seat position at the touch of a button
- Lie flat position, semi stand, pressure relief and more

From £19,995\*

Scan the QR code with  
your phone to learn more  
about JAY SYNCRA.

## JAY SYNCRA

JAY SYNCRA is designed specifically to optimise your seated position whilst using powered tilt and recline. The SYNCRA seat and backrest are designed to minimise the movement of pelvis maximising your comfort and supporting a better seated position.

This is achieved through a tapered backrest, scalloped lower back shell and a lowered rear pelvic wall on the cushion and segmented fluid insert.

## BENEFITS OF STANDING

With a standing angle of up to 85°, the SEDEO PRO ADVANCED UP allows you to stand whenever you want and offers many health and lifestyle benefits:

- Improved pressure relief for those who may have limited ability to independently weight shift or have to sit for long periods.
- Enhanced function and ability to reach and access your environment.
- Improved range of motion and a reduction of the risk of contractures.
- Supporting vital organ capacity, including pulmonary, bowel and bladder function and improves circulation.
- Promoting bone health and reducing the occurrence of skeletal deformities by prolonged sitting.
- Reducing abnormal muscle tone and spasticity.
