Prince

The Prince combines contemporary style with exceptional manufacturing design helping you to get into and out of the chair with ease. Fitted with an adjustable back cushion, generous layers of foam and a multiple sprung seat base, the Prince offers ultimate comfort for the perfect restful haven during the day. The back cushion is independently adjustable allowing you to get the comfortable seating position you need. The easy to use hand controller, which is suitable for both left or right-handed use, controls the smooth and quiet motors, making it simple, safe and speedy to stand and sit. Available in a dual motor model. The dual motor mechanism enables the user to control the backrest and footrest independently, allowing even more control over the chair. Designed with full power-lift facility to assist sufferers of arthritis, rheumatism and other movement restrictions. The high leg elevation position also helps improve poor circulation. Large pockets are located on each side of the chair which are perfect for storage and safekeeping. The complete Prince collection is available for express delivery in three luxurious fabrics to suit your interior style.
