

INSTRUCTIONS FOR USING THE FERRY-MORSE GROW LIGHT

- 1) This grow light is for household/indoor use only.
- 2) Remove light strip and its components from its packaging. (See Fig. 1)
- 3) Place the plastic caps onto the fixture. Please disregard this step if the plastic caps are pre-placed (see Figs. 2 & 2a).
- 4) Take note that the T5 bulb in the reflector is already attached to the strip.
- 5) Insert the stands into the plates individually. Take note that the side with gap lines should be downward (see Fig. 3).
- 6) Insert the other side of stands into the holes on the two mounted plastic caps (see Fig. 4).
- 7) Insert the power cord into the light system. Ensure that you plug into the male side (with prongs) of the light bar. The system is now ready to use (See Fig. 5).
- 8) Position Grow Light over seedlings. Seedlings usually prefer 16 hours of light per day. Using a timer will help automate your light schedule. The direction of the light can be adjusted according to your needs.

WARNING:

- Electric shock or fire may result if used improperly.
- Not recommended for use by children 12 years and under. Children should be supervised to ensure that they do not play with the appliance.
- Never use in combination with heat mat or in direct sunlight. This will overheat and dry out your seedlings tender roots.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- **DO NOT immerse grow light in water.**
- **DO NOT wrap or cover with insulated material(s).**
- **DO NOT use outdoors.**
