

SHOAL FLOOR LIGHT

Product Specification

Tom Raffield

Drawing inspiration from the fluid motion created by schools of fish swimming together, the Shoal Lighting Range is a celebration of unity. Designed to mimic the interwoven textures and smooth, flowing forms found beneath the surface of the ocean, each piece is carefully crafted to evoke a sense of tranquillity.

The handcrafted sculptural floor light is created from interwoven layers of curving sustainably sourced ash, oak, or walnut wood. The twisting, textured surface creates a calming visual impact, while the bold display of light and shadow enhance with dynamic character. Well suited to living areas, dining spaces or bedrooms, this statement wooden floor light enhances your room with a balance of style and serenity.

Welcome harmonious light in motion.
