

Drawing inspiration from the fluid motion created by schools of fish swimming together, the Shoal Lighting Range is a celebration of unity. Designed to mimic the interwoven textures and smooth, flowing forms found beneath the surface of the ocean, each piece is carefully crafted to evoke a sense of tranquillity.

This handcrafted light is created from thirteen swirls of sustainably sourced ash, oak, or walnut, interwoven in flowing layers. The twisting, textured surface creates a calming visual impact, while the bold display of light and shadow enhances with dynamic character. With a flush, integrated LED light source beneath the surface to provide an ambient glow, this hardwired wooden wall light is well suited to entranceways, bedrooms or living rooms, enhancing your space with a balance of style and serenity.

Welcome harmonious light in motion.
