

AeroPress

BREW GUIDE

You'll need:

- **AeroPress**
- **16g Coffee**
- **250g Water**
- **Filter**
- **Timer**
- **Scales**

-
- **Attach plunger to AeroPress brewing chamber and turn upside down, adding 16g of medium/fine coffee to the chamber.**
 - **Place your filter paper(s) in the filter cap and pre-wet. Use 2 filters for a cleaner brew.**
 - **Place AeroPress on scales. Shake to level the grounds, then add all 250g water. Stir.**
 - **Remove from scales, screw on the cap and wait for one minute. Gently press until bubbles form on the cap.**
 - **Place the cup upside down onto the inverted AeroPress, flip it over, and plunge gently, until you hear a hissing sound, Enjoy!**
