HOUSEKEEPING SOLUTIONS: SINGLE CHEMICAL DISPENSER

Fusion: Simple Fast Chemical Dispensing

Fusion is an innovative chemical dispenser designed to be installed quickly, simple to use, and easy to service. The sleek, modular design utilizes a large activation button and offers premium branding space for customized labels. Powered by DEMA's pilot water valve, the smallest, most versatile water valve on the market using DEMA's proven pilot valve technology, Fusion provides an advanced, slender and more efficient package. It's all here!

Features and Benefits

- Sleek, simple design for the modern housekeeping environment
- Large push button for easy activation and optional lock-on for bucket filling
- Six button colors: black, blue, green, red, white, and yellow
- Premium branding label display area for company name or chemicals
- Easy to change diaphragm with quick access to components
- Fewer water valve components to service
- Push button cover release with optional security screw
- Built-in bubble level and keyhole mounting slots
- Robust integrated hose hanger
- FloRite technology for consistent dilutions (Action Gap)
- Quick connect manifold and water inlet fitting

Model #	Bottle or Bucket	Color Button

644G.R1C.E0	Bucket Fill	Red
644G.G1A.E0	Bottle Fill	Green
644G.G1C.E0	Bucket Fill	Green
644G.Y1A.E0	Bottle Fill	Yellow
644G.Y1C.E0	Bucket Fill	Yellow

The Pilot Water Valve

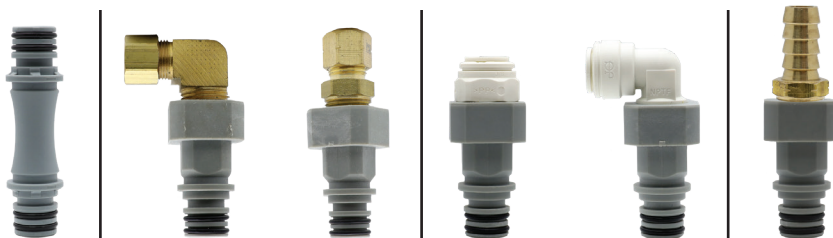

The pilot-activated water valve simplifies the dispenser's operation. With fewer components than competitive models, service and maintenance is far less frequent making it the reliable water valve of choice.

Why Fusion?

- Greater versatility for a wide variety of water connections. Garden hose, brass compression, quick-connect push-on, and barb fittings are available.
- Ease of installation with smart features to reduce installation time.
- Fewer moving parts improves reliability over other systems.
