

KEEL – STEM FLOOR LIGHT

Tom Raffield

Product Specification

Born in the barrel of a waking wave, the Comber Lighting Range is shaped by the reverberating tides that lap the Cornish coastline. Inspired by the power and grace of the Atlantic Ocean, our newest collection ebbs, flows and rolls into your home, bringing with it the motion of seasonal Cornish swells.

Taking inspiration from the natural, spiralling forms found along our Atlantic tide lines, the Keel Stem Floor Light is a striking display of confident, modern design. Made from one isolated section, a wide piece of oak timber is arched by hand into a choreographed formation to create a pleasing tapered shade, hung from a steam bent solid oak stand. Producing a funnel of diffused downlight this striking floor lamp creates an inviting glow and will bring serenity to a cosy bedroom corner or directional light to a cosy reading nook.

Step into the wave, invigorate your interiors.
