Storage Box – Small

Congrats on your new Storage Box!
We hope very much that you are going to be happy with your new Storage Box for many years to come. In the following pages you will find out how to assemble and look after your new home accessory.

Product Description
Storage Box is ideal for the living room, the bedroom or the children's room. It is minimalist and simple – cut down to its core function: hide away those things you often use but don't want to be lying around.

The stackable box is made for storage and designed to fit into any room. Use it as a combined storage and bedside table in the bedroom. Keep your magazines nicely displayed in the living room and keep the toys organised in the children's room.

Just like most other MOEBE products, the Storage Box is component-based and you can assemble and disassemble it again – as many times as you like. Use the frames as handles to effortlessly move the boxes around.

The box is stackable. For stability, we recommend stacking no higher than the equivalent height of three standard Storage Boxes, with a maximum total height of 100 cm. When stacking different sizes, always place larger and heavier boxes at the bottom, keep the boxes aligned, and never place a larger box on top of a smaller one.

Assembly
Please see the following assembly instructions or find them at www.moebe.dk

Taking care of your new Storage Box
If at any time the wood displays lighter dry patches, we recommend you apply a thin coat of oil to the box with a clean lint-free cloth to nourish the wood. Small cans of pigment-free furniture oil are available from most DIY or hardware stores. Do not use oils sold for cooking or eating.

Note: The Storage box has been treated with oil to protect the surface. Upon delivery, in some rare cases there can be some excess oil – simply wipe this off with a clean, dry cloth.

Any spills must be removed immediately using a cloth. Dust can be removed with a damp cloth. Light stains may be removed by gently rubbing in the direction of the grain with 400 grit (very fine) sandpaper and re-oiling afterwards.

5 Year Warranty
We believe in what we do and in the quality of our products. That's why we give you a 5 year warranty. This guarantee covers any functional, material or manufacturing defect on any product you buy from us for private use.

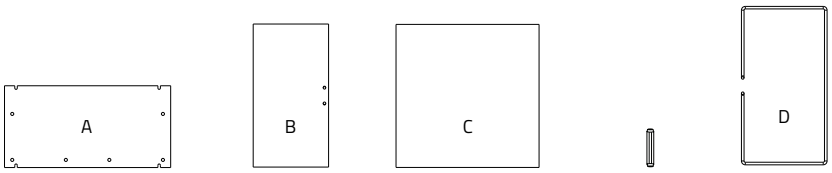

Spare parts – Keep it going forever
All our products are component based and have been designed this way to make repairs simple. You can find and purchase all spare parts for your product on www.moebe.dk for a period of at least 5 years after your purchase. It should always be cheaper and easier to repair, than buying new.

Recycling
Whilst we hope that your MOEBE Storage Box will serve you well for many years to come, if you do at some point wish to recycle it then it is easy to do so. Simply split the product down into its separate parts and recycle them by material.

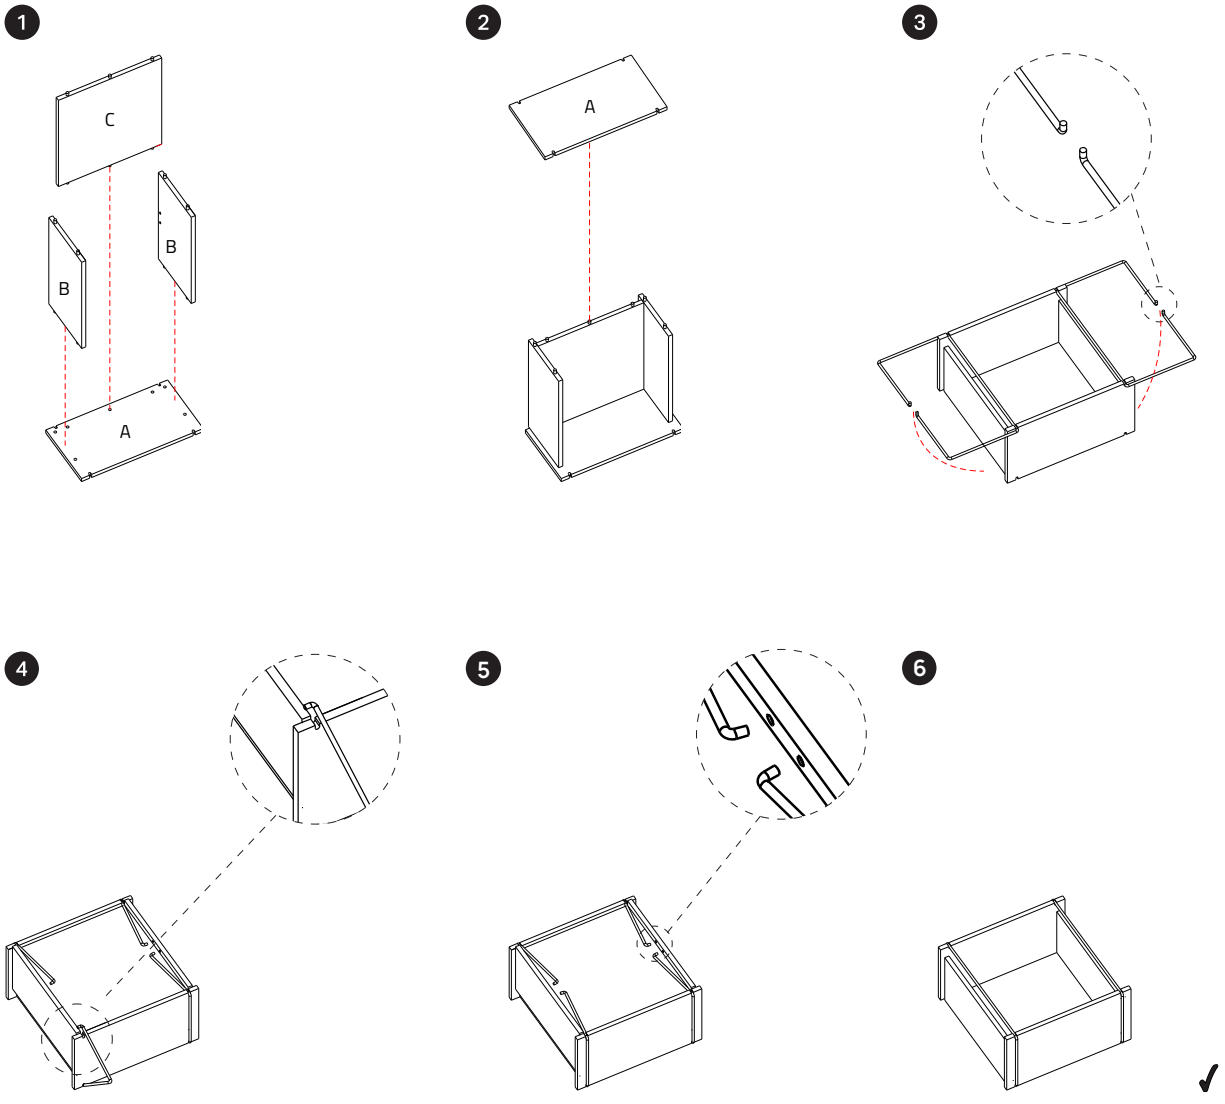

All parts can be recycled. How this is done depends on local regulations and facilities.
