

URCHIN X-SMALL RANGE – TRIO CLUSTER

Tom Raffield

Product Specification

Urchin X-Small Range – Trio Cluster

A trio of wooden lampshades from our iconic Urchin Lighting Range gracefully cascade to create pools of brightness in the dark. Streams of light escape through the seams of ninety-six lengths of fused ash, oak or walnut wood producing beams of delicate, eye catching warmth. Designed to ensure that the light bulb inside is completely concealed, our Urchin Pendant Small, Urchin Oval Pendant and Urchin Globe Pendant create a dynamic cluster ceiling light that suits those who prefer soft, ambient light.

As with all our Cluster Lights, the adjustable flex height and customisable positioning ensures they are suitable for any ceiling height. The Urchin X-Small Range – Trio Cluster promises to bring atmosphere in abundance and brighten any room.

Our signature pendant lights, your way!
