

Warm light gathers between strips of wood. Flexed to the brink then fixed into an organic sphere inspired by sand combed shells, our Urchin Lighting Range brings atmosphere in abundance.

17 taut curves fused together with laser cut birch plates are carefully manipulated to conceal the bulb in an updated, smaller silhouette. Sustainable ash, oak or walnut sees light escape through the seams of this wooden wall lamp, creating pools of brightness in the dark. The Urchin Wall Light sits perfectly in scani-inspired living rooms and cosy bedrooms.

Let Nature In. Soften your space. Draw the eye.
