

Skipper Flush Ceiling Light

Scandinavian design principles and our sought-after aesthetic, merged. Sustainably sourced ash, oak or walnut wood is hand-shaped by our skilled workshop team to create a flush fitting, ceiling mounted shade that illuminates space with a bright, bold contrast of light and shadow. Suited to smaller rooms with low ceilings, the Skipper Flush Ceiling Light brings atmosphere in abundance - without taking up too much space.

DISCLAIMER

Due to the character of handcrafted natural products, all dimensions are approximate. Wood colour may slightly vary. All product details are correct at time of print and are subject to change without notice.
