

Skipper Pendant Small - Trio Cluster

Elegantly suspended from a single matte white or black ceiling kit, a trio of our best-selling Skipper Pendants twirl and twist. Undulating loops of ash, oak or walnut wood soar together in a formation designed by you. Handcrafted from sustainably sourced European timber and assembled using a dry construction process by our skilled team of makers, the Skipper Pendant showcases responsible design at its very best.

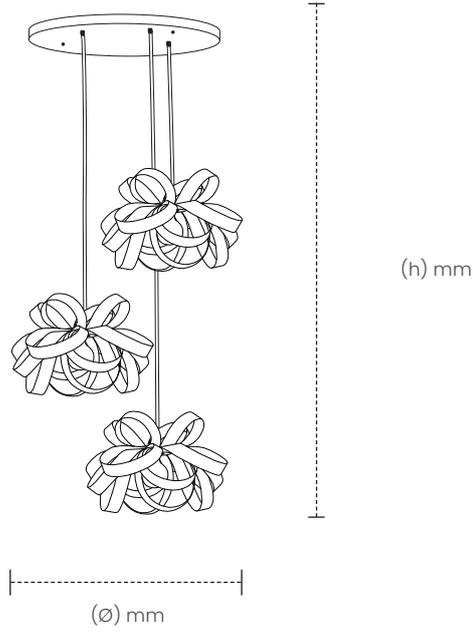

The Skipper Pendant's curvaceous silhouette casts bold shadows upon ceilings and walls, whilst the diffused light from each shade produces ambient task lighting perfectly suited to an open living space.

Our signature pendant lights, your way!
