

Installation Guide

CORE - DOWNLIGHT

Thoughtful lighting, responsibly designed in London.

Thank you for making the switch to Tala.

Discover the full Tala family at tala.co.uk

BEFORE STARTING

Please read instructions thoroughly before installation and keep them for future reference. Please take extreme care when dealing with electrical equipment. Improper assembly can undermine the safety and longevity of the product.

IMPORTANT

This fitting operates on 240V mains voltage.

Please visit our website to see our recommended dimmers.

This product is for indoor use only.

Not suitable for covering with thermal insulation.

WARNING

Always switch off electricity supply at the mains during installation and maintenance. We recommend that the fuse is withdrawn or the circuit breaker is switched off whilst work is in progress. Do not just turn off at the wall switch. All fittings must be installed in accordance with current Building Regulations and IEE Wiring Regulations.

RECOMMENDED EQUIPMENT

- Ø76mm/3in Hole saw
- Wire strippers
- Insulation tape

Further equipment may be required for fixing to your wall or ceiling

Core Downlight - Provided Components

STEP 1

Create a 76mm/3in hole for the mounting bracket.

STEP 2 - WITH TRIM

This bracket is designed to be installed after plastering.

Insert the Bracket With Trim (A) into the cutout by folding in the flanges.

Releasing the flanges will hold the fixture in place.

STEP 2 - TRIMLESS

This bracket is designed to be installed before plastering.

Insert the Trimless bracket (A) into the cutout and screw into ceiling.

Use screws and plugs appropriate for your ceiling type.

Plaster over the bracket.

STEP 3

Identify your household wiring using current Building Regulations and IEE Wiring Regulations.

Attach the GU10 lampholder wiring to your household supply as shown. Use an appropriate junction box.

Household Mains

Brown or Red(L)

Blue or Black(N)

Brown or Red(L)

Blue or Black(N)

GU10 lampholder

STEP 4

Insert a GU10 bulb into the lampholder (E).

Tala GU10s can be purchased separately from tala.co.uk.

STEP 5

Click the GU10 into the Downlight insert (B) using the metal spring clips.

STEP 6

Insert the Downlight insert into the recessed trim.

Fold down the handle.

Insert the Straight reflector (C) into the Downlight insert, aligning the magnetic pins to secure in place.

FOR ANGLED INSTALLATION

Remove the screw in the
Downlight insert.
Tilt the GU10 45 degrees.

Insert the Angled reflector
Ⓓ into the Downlight insert,
aligning the magnetic pins to
secure in place.

IMPORTANT

This fixture is not suitable for
covering with thermal insulation.

Ensure adequate mounting spacing
in the ceiling cavity as shown.

CARE AND CLEANING

We recommend cleaning with a soft dry cloth.

If required, further cleaning can be achieved with warm, soapy water.

Do not use abrasive materials as these will damage the lacquer.

Do not use alcohol or other solvents.

WARRANTY AND AFTER-CARE

This product has a two-year warranty. If there appears to be a functional defect with the product during this time, please contact our team at customerservice@tala.co.uk.

Please note, if the cable attached to this fixture is damaged, it should only be replaced by qualified person.

This symbol  indicates that electrical and electronic equipment (WEEE) should not be mixed with general household waste. For recovery and recycling, please take this product to a designated collection point where it will be accepted free of charge. Many retailers offer this in-store. Disposing of this product correctly will help save valuable resources and prevent any potential negative effects on human health and the environment.
