

Kränzle product highlights

**FOR EACH APPLICATION  
THE SUITABLE KRÄNZLE!**

- High pressure cleaners
- Wet and dry vacuum cleaners
- Hand power sweepers
- Accessories range

**PUMP HEAD MADE OF SPECIAL BRASS**

The pump head produced from forged special brass is the centrepiece of our well-developed high-pressure cleaners. The picture is completed by a large and clearly arranged manometer of stainless steel (except for K 1050 series). Thanks to dry-run safety and leakage return system the life time of the machines is considerably increased.

**STAINLESS STEEL PLUNGERS WITH CERAMIC COATING**

All Kränzle high-pressure cleaners are equipped with ceramic coated stainless steel plungers, considerably increasing life-time of the machines. The good thermal conductivity of a stainless steel plunger is unified with the positive characteristics of a ceramic coating (extremely low-wear surface).

**DURABLE HIGH PERFORMANCE MOTOR**

Large dimensioned durable motors in usual high Kränzle quality for extreme durability and highest performance.

High-pressure cleaners with slowly running 4-pole electric motors (1,400 rpm) are operated with a slow rotational speed, reducing the starting current, noise generation and wear and tear.

**CLICK!**

**QUICK-COUPLING CONNECTOR SYSTEM**

The quick system hardened stainless steel provides for an easy and absolutely safe connection of the trigger gun with the lance.

**Advice:** On request, Kränzle high-pressure cleaners with screw system can also be converted to quick coupling system.

**DETERGENT SUCTION**

For intensive cleaning in case of heavy dirt a diversity of Kränzle high-pressure cleaners provides direct detergent suction. In case of machines with integrated water tank, detergents are applied by high pressure. For machines without water tank, the cleaning agent is applied by an injector with low pressure.

**OFF-ROAD CAPABILITY AND STABILITY**

The extremely stable and robust chassis enables effortless transport even in rough terrains and provides for high stability during application. Thanks to the largely dimensioned wheels, small obstacles can be easily managed.

**INDUSTRY SOLUTIONS | FOR EACH APPLICATION THE PERFECT KRÄNZLE!**

Each industry requires individual solutions. Requirements and tasks to high-pressure cleaners, wet and dry vacuum cleaners as well as power sweepers considerably differ from industry to industry. Therefore, Kränzle has developed a product range which thanks to its diversity and depth complies with all requirements superiorly.

**GARAGES, FORWARDING COMPANIES**

- Automotive industry
- Bus and taxi companies
- Garages
- Fleet
- Forwarding companies

**AGRICULTURE & ANIMAL HUSBANDRY**

- Agricultural technology
- Forestry companies
- Cattle breeding
- Biogas plants

**CLEANING OF BUILDINGS - HOUSE & YARD**

- Private user (House & Yard)
- Cleaning of buildings
- Janitorial business

**PUBLIC SERVICE, CONSTRUCTION INDUSTRY**

- Construction industry
- Municipalities
- Fire-brigades
- Railway company
- Emergency services

**HYGIENE SECTOR, SANITARY FACILITIES**

- Wastewater technology
- Sanitary installations
- Butchery and slaughterhouse business
- Piping, sewage and industrial services

**CRAFT SECTOR**

- Locksmithery
- Painting enterprises
- Carpentry
- Bakeries
- Wood processing industry

**INDUSTRY**

- Engineering
- Shipyard / Shipbuilding

## COLD WATER HIGH-PRESSURE CLEANERS | WALL AND STANDING UNIT

### EXPERT TIP!

#### HOSE DRUM SET

Automatic hose rewinder for the ideal usage of the **WS 1000 TS** as wall unit.

- Hose drum made of stainless steel
- Swivelling wall holder
- Connecting hose 2 m

with 20 m high pressure hose  
with 30 m high pressure hose

412681  
412691

NEW!

### WS 1000 TS

4131310

- Wall and standing unit
- 10 m Steel braided high-pressure hose 44878
- Stainless steel lance with flat jet nozzle 12420-D2505
- **Optional:** Turbokiller lance with stainless steel 12430-055

Pressure	Output	Elec.connection	Motor speed
30 - 200 bar	16 l/min	400 V~3/50 Hz	1,400 rpm

## COLD WATER HIGH-PRESSURE CLEANERS | PORTABLE

NEW!

### HD 7/122 TS

417321

- 10 m steel braided high-pressure hose 43416
- Stainless steel lance with flat jet nozzle 12393-M20028
- Dirtkiller lance with stainless steel pipe 41570-028

Pressure	Output	Elec.connection	Motor speed
30 - 120 bar	7 l/min	230 V~1/50 Hz	1,400 rpm

NEW!

### HD 10/122 TS

417331

- 10 m steel braided high-pressure hose 43416
- Stainless steel lance with flat jet nozzle 12393-M20042
- Dirtkiller lance with stainless steel pipe 41570-042

Pressure	Output	Elec.connection	Motor speed
30 - 120 bar	10 l/min	230 V~1/50 Hz	2,800 rpm

### HD 12/130

41168

- 10 m steel braided high-pressure hose 43416
- Stainless steel lance with adjustable nozzle 12701-M20042
- detergent suction

Pressure	Output	Elec.connection	Motor speed
30 - 130 bar	11 l/min	230 V~1/50 Hz	1,400 rpm

## ACCESSORIES FOR HIGH-PRESSURE CLEANERS | FLOOR CLEANER

Nozzle 045: 41850

### Round Cleaner **UFO long**

■ Light version ■ Ø 300 mm  
For fast cleaning from small to medium areas.

Inlet	Output	Water temp.
M22x1,5 AG	max. 12 l/min	max. 60 °C

Nozzle 045: 41861  
Nozzle 055: 41860

### Round Cleaner **UFO long stainless steel**

■ Stainless steel ■ Ø 350 mm  
For fast cleaning from small to medium areas.

Inlet	Output	Water temp.
M22x1,5 AG	max. 15 l/min	max. 60 °C

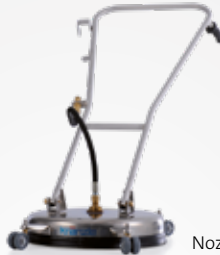

Nozzle 055: 41105

### Round Cleaner **stainless steel**

■ Stainless steel ■ Ø 300 mm  
For fast cleaning from medium to large areas.

Inlet	Output	Water temp.
M22x1,5 AG	max. 15 l/min	max. 60 °C

Nozzle 055: 41106

### Round Cleaner **stainless steel**

■ Stainless steel ■ Ø 420 mm  
For fast cleaning from large to very large areas.

Inlet	Output	Water temp.
M22x1,5 AG	max. 19 l/min	max. 60 °C

Nozzle 055: 41107

### Round Cleaner **stainless steel**

■ Stainless steel ■ Ø 520 mm  
For fast cleaning from large to very large areas.

Inlet	Output	Water temp.
M22x1,5 AG	max. 19 l/min	max. 60 °C

## ACCESSORIES FOR HIGH-PRESSURE CLEANERS | HOSES & SUCTION CLEANERS

10 m 410581  
15 m 41058  
20 m 410582  
25 m 410583  
30 m 410584

### Pipe cleaning hose

■ Nozzle KN 055 as standard  
For areas difficult to access such as outflows and gutters.

Inlet	Output	Water temp.
M22x1,5 AG	max. 19 l/min	max. 60 °C

41104

### Sludge sucker

■ Hose length 3.5 m ■ max. suction height 3 m  
For easy suction of sludge from pools and ponds.

Inlet	Output	Water temp.
M22x1,5 AG	max. 20 l/min	max. 60 °C

150383

### Suction hose

■ Hose length 3 m ■ with non-return valve  
For sucking water from separate containers or ponds.

Inlet
R 3/4" IG

## ACCESSORIES FOR HIGH-PRESSURE CLEANERS

### WASHING BRUSHES AND MORE

410501

#### Washing brush, **rotating**

- Brush head Ø 180 mm
  - 400 mm hose extension
- For the gentle cleaning of persistent dirt at vehicle and facades

Inlet	Output	Water temp.
M22x1,5 AG	max. 20 l/min	max. 35 °C

410500

#### Washing brush, **cross**

- Brush head L 240 mm x W 90 mm
- For gentle cleaning in case of persistent dirt at vehicles and facades

Inlet	Water temp.
M22x1,5 AG	max. 35 °C

133003

#### Water inlet filter

- Inlet and outlet in brass version
- Avoids damage at high-pressure pump caused by dirt particles in the water

Inlet	Outlet
R 3/4" AG	R 3/4" IG

1L

2L

1 L: 135301  
2 L: 135311

**NEW!**

#### Foam injector

- with with screw fitting
- Creation and distribution of efficient foam.  
For trigger guns with safety catch, with screw fitting.

Inlet	Nozzle	Pressure	Water temp.
M22x1,5 AG	03	250 bar	max. 60 °C

**CLICK!** QUICK-COUPLING SYSTEM D12

2 L: 135313

**NEW!**

#### Foam injector

- with plug-in nipple
- Creation and distribution of efficient foam.  
For trigger guns with safety catch, with quick coupling connection.

Inlet	Nozzle	Pressure	Water temp.
D12	03	250 bar	max. 60 °C

5 L: 412589  
25 L: 412588

#### Universal cleaner **Alfa Neutral**

- pH-value 10.9 (undiluted condition)
- Universal cleaner for removing heavy dirt.

41052

#### Spray guard

- Ø Bottom 220 mm
- Applicable for all washing lances.  
For cleaning mossy ways without splash water.

41262

**STORAGE SYSTEM**

#### Wall bracket **Butler**

- Supply without accessories
- For ideal and space-saving stowage of Kränzle accessories

## ACCESSORIES FOR HIGH-PRESSURE CLEANERS | SPECIAL LANCES

41075

#### Under carriage lance

- 1000 mm Stainless steel extension
- For cleaning vehicle floors and areas difficult to access.

Inlet	Nozzle
M22x1,5 AG	4007

121311

#### Double lance **ISO handle**

- 660 mm
- For infinitely control of working pressure.  
Please order high-pressure nozzle separately.

Inlet	Nozzle (standard)
M22x1,5 AG	Low pressure nozzle D3035

## INDUSTRIAL VACUUM CLEANERS | WET AND DRY

### Ventos 20 E/L

583910

- Main filter cartridge 454403
- Dust bag 454400
- Suction hose (Ø 36 mm x 3.5 m) 452819
- Floor nozzle (300 mm) for wet vacuuming 584021
- 2 extensions (500 mm stainless steel tubes) 584030
- Hand pipe, angled 584029
- Flat nozzle (300 mm) 584023
- Upholstery nozzle 584009
- Suction brush 584008

Dust classification	Output	Electrical connection	Container volume
L	2400 W	230 V~1/50/60 Hz	17 l (dry)

### Ventos 30 E/L

583930

- Main filter cartridge 454403
- Dust bag 454401
- Suction hose (Ø 36 mm x 3.5 m) 452819
- Floor nozzle (300 mm) for wet vacuuming 584021
- 2 extensions (500 mm stainless steel tubes) 584030
- Hand pipe, angled 584029
- Flat nozzle (300 mm) 584023
- Upholstery nozzle 584009
- Suction brush 584008

Dust classification	Output	Electrical connection	Container volume
L	2400 W	230 V~1/50/60 Hz	32 l (dry)

## ACCESSORIES CLEANERS | OPTIONAL

584028

### Floor nozzle Premium

- 450 mm
  - made of aluminum
- For cleaning of large surfaces.  
With brush insert and rubber lip insert.

584018

### Carpet nozzle

- 295 mm
  - reversible
- For cleaning of carpets and smooth surfaces.

584024

### Turbo brush

- 280 mm
- With revolving brush roller. For cleaning of carpets.

584017

### Universal brush nozzle

- 130 mm
- For simultaneous brushing and vacuuming.

584020

### Suction brush

- 175 mm
  - with hook-and-loop-tape
- Especially for animal care.

## HAND POWER SWEEPERS

### Kränzle 2+2

50076

- Double brush-roller hasp principle
- Continuously height adjustable side brushes

Volume storage bin	Working width

**NEW!**

**Foam injector light**

- adjustable spraying angle
- Creation and distribution of efficient foam.

Pressure	Filling quantity	Water flow
250 bar	1 Liter	max. 60 °C

## INNOVATIONS ALL ALONG THE LINE | WE ARE KRÄNZLE

In 1974, the company was founded with the objective to produce high-pressure cleaners in professional quality for the cleaning market. Thanks to consequent implementation of this achievement goal we succeeded in emphasizing the brand Kränzle on the global market.

Nowadays, the company features subsidiaries in Switzerland and Poland as well as a comprehensive network of importers in more than 90 countries in all over the world. The picture is completed by about 200 employees distributed to two plants with a total area of 54.000 m<sup>2</sup>.

### **FROM THE IDEA TO THE FINISHED DESIGN**

The inhouse research and development department continuously works on innovations providing convincing solutions for the global requirements of the cleaning industry.

Numerous patents and the continuous development of the range represent examples for the high innovative energy of the company.

### **ATTENTION TO DETAIL IN ALL AREAS**

Kränzle relies on quality and precision "made in Germany".

By investing in most modern assembling equipment and detail accuracy of experienced employees the company Kränzle ensures that the high requirements to each individual product are uncompromisingly secured.

### **ALWAYS FASTER FROM A TO B**

Highly qualified sales employees provide for first-class customer service and control the global network of authorized specialist trade partners.

Numerous logistics professionals provide for on-time delivery. With a high-bay warehouse and more than 6,500 pallet bays the company Kränzle is best prepared for large-scale orders.
