

LIGHTWEIGHT LINE OF HOISTS

DESIGNED FOR OFF-ROAD APPLICATIONS

Lug-All's Lightweight Line of Hoists are light and compact for easy portability. These hoists are ideal for recreational applications, such as driving snowmobiles, ATVs, Jeeps, and other off-road vehicles. They can be used to rescue stuck vehicles, clear obstacles from a trail, set overturned vehicles upright, and more.

- One of two interlocking pawls is always engaged, so the load is always secure.
- Small frame and compact size make storage and transportation easy.
- Open frame allows for cleaning and visual inspection.
- Each lightweight hoist weighs under eight pounds.

SMALL FRAME MODELS 500-A, 500-i, 1000-25

Model 500-A

Model 500-i

Model 1000-25
