

ThermoWorks

BlueDOT™

Bluetooth-Connected Alarm Thermometer

Current temperature is displayed with big digits for easy reading.

Durable housing survives daily use in busy commercial kitchens.

Molded-in seals protect against kitchen spills and splashes.

Physical buttons for quick use

Alarm temperature is displayed here.

High-temp junction is sealed against high-steam oven environments.

Review current temp, up to 95 feet line-of-sight.

Monitor alarms in app.

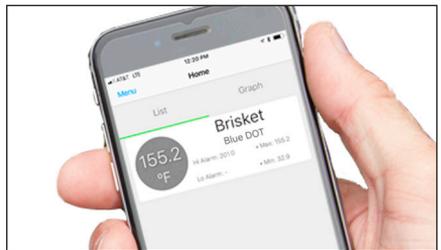

Graph your cooks.

Pro-Series® High Temp Straight Penetration Probe has a range of -58 to 572°F (-50 to 300°C) and cable max temp of 700°F (included with DOT).

Pro-Series Probes

ThermoWorks' Pro-Series thermistor probes are commercial-quality temperature probes designed to bring you a more economical probe. These temperature probes are great for BBQ, oven-roasting, deep frying, and chocolate making.

ThermoWorks BBQ App

BlueDOT and Smoke™ Gateway monitor in the same app. Review your cook with the graph and get notifications when your unit's alarm sounds.
