

# Visu Chair Wood Base

“The task was to create a personal interpretation of the ever-relevant plywood chair. I wanted my chair to have an unobtrusive and timeless nature that is familiar but never boring and without sacrificing function or ergonomics. Designing a family of chairs, visually related but for different functions, was an interactive and thorough process lasting nearly two years. In the end, I think every detail is exactly as it is supposed to be.”

— Mika Tolvanen

<b>Designed by</b>	Mika Tolvanen
<b>About the Designer</b>	Mika Tolvanen is part of the Finnish Rehti Design group. After graduating from the Royal College of Art with a Master in design in 2001, Mika established his own design office in Helsinki. He has since worked with some of the world's top designers and manufacturers.
<b>Environment</b>	Indoor
<b>Country of Production</b>	Latvia
<b>Preassembled</b>	Yes
<b>Description</b>	Depicting a refined simplicity, the Visu Chair is perfect for the modern home, office or commercial space. Made from form-pressed veneer wood, the curved body and slender base create a distinct yet clean silhouette.
<b>Material</b>	<p>Non-upholstered version: The shell is made from form-pressed oak or ash veneer with water-based lacquer. Upholstered version: The shell is made from form-pressed oak or ash veneer with foam and fully upholstered with high-quality textile or leather.</p> <p>Wood Base is made of form-pressed oak or ash veneer with water-based lacquer.</p> <p>Oak and ash veneer: slight color variations can occur due to the material's inherent characteristics.</p> <p>Lacquered Ash Veneer: Ash is a key material in Scandinavian furniture. We use naturally bright, oiled ash wood to bring a light sentiment into our designs. The material is used in all of our colored furniture designs as ash is easily curved and shaped and is an excellent lacquering surface, giving the vibrant colors a long lifespan.</p>

## Cleaning & Care

Wood base: Clean regularly using a damp and clean cloth. Spilling should immediately be removed to avoid discoloring. Remove stains using a mild mixture of water and detergent. Avoid contact with sharp objects, as these can leave scratches in the wood and lacquer.

For non-upholstered versions:

Clean regularly using a damp and clean cloth. Spilling should immediately be removed to avoid discoloring. Remove stains using a mild mixture of water and detergent. Avoid contact with sharp objects, as these can leave scratches in the wood and lacquer.

For textile upholstered versions: In case of stains, we generally recommend removing non-greasy stains by carefully dabbing them with a lint-free cloth or sponge wrung out in clean, warm water. Clean by dabbing it with soapy water and making it with a bit of dish soap if necessary. Finally, dab the surface with clean water. We advise visiting [Kvadrat.dk](http://Kvadrat.dk), [Nevotex.dk](http://Nevotex.dk), [Maharam.com](http://Maharam.com), or [Gabriel.dk](http://Gabriel.dk) for further cleaning and maintenance instructions for your chosen textile, as the cleaning methods may vary from one textile to another.

Leather: As a natural material, leather requires looking after. If you care for the leather correctly, it will become even more beautiful over time.

Refine, Easy, and Endure Leather: Regularly clean leather with a dry cloth. Treat the leather at least four times a year using only special leather treatment products. Visit [ca-mo.com](http://ca-mo.com) for further information on cleaning leather.

Allure and Grace Leather: Only vacuum clean with a soft brush. Never use soap or water; otherwise, the velvety look and feel will disappear. Do not apply leather grease or soak the leather. Avoid chemical products like saddle soap, leather cleaners, or household products.

## Spare Parts

Plastic glide included. Felt glides sold separately.

## Additional Information

Please note that all upholstered products, sold in the UK, contain flame retardant foam in order to fulfill the stringent flammability standards under the UK Furniture and Furnishings Fire Safety Regulations. The flame retardant used in the foam is melamine, CAS number: 108-78-1.
