- Combined hard/soft stellar-shaped bristles
- Comfortable, height-adjustable driving handle

The Kränzle Colly 800 for perfect cleanliness

INNOVATION ACROSS THE WHOLE BOARD!

FLEXIBLE USE

The side brushes on the Kränzle Colly 800 are continuously height-adjustable and can be folded up individually out of the way as required.

The long bristles on the side brushes cater for perfect cleanliness even in difficult spots such as curbs.

PERFECT CLEANING RESULTS

The smooth motion of the Kränzle Colly 800 in conjunction with alternating double bristles (hard and soft) securely collects dust, cigarette ends, dead leaves, small plastic items and bits of metal in the large-volume waste bin.

INTEGRAL FREEWHEEL SYSTEM

Forward motion actuates the drive system on the sweeper roller and side brushes. When the Kränzle Colly 800 is in reverse motion the sweeper roller and side brushes are decoupled from the drive system and assume a freewheel function.

This ensures that the sweepings remain inside the waste bin.

EASY-TO-EMPTY WASTE BIN

The waste bin on the Kränzle Colly 800 is easily detachable to facilitate emptying. A convenient carrying handle rules out direct contact with the sweepings.

The waste bin is designed in such a way that it can be placed in an upright position.

SPACE-SAVING STORAGE

The compact dimensions of the Kränzle Colly 800 serve to provide extra usable space. A few simple twists and turns are all that are needed for efficient stowage when not in use. Simply fold in the push bar and allow the Kränzle Colly 800 to stand in a vertical position.

Easy handling, perfectly tailored to your needs
