WILD CAUGHT

ENJOY

SABIN LOMAC &
JIM TSELIKIS

We started Cousins Maine Lobster with one goal in mind: to share the Maine lobster we grew up eating with other lobster lovers around the world. Our delicious Maine lobster and other seafood dishes are born from family recipes, and shipped straight from Maine's shore to your door. We couldn't be happier and more excited to share these wonderful seafood products with you. We hope a meal from Cousins Maine Lobster brings your family together to create special memories, the same way it has always bonded our family. Thank you for experiencing our Maine.

ABOUT

1

LIVE MAINE LOBSTERS

Get the full Maine Experience at home by ordering live Maine lobsters shipped directly to your door. Our Maine lobsters will make your next celebratory dinner a memorable and exceptional experience for you and your guests. Our lobsters arrive to you alive, please handle with care.

COOKING

STEAMING: Fill a large pot with 2 inches of water and add sea salt. Bring to a boil and carefully place lobster head first into the pot, on a steam rack or tray. Cover and cook according to the chart below.

BOILING: Fill a large pot with 3 quarts of water (enough so lobster is submerged) and add sea salt. Bring to a rolling boil and carefully place lobster head first into the pot. Cover and cook according to the chart below. Please note, cook times are approximates.

WEIGHT	STEAM	BOIL
1.25lb	12mins	9-10mins
1.5lb	14mins	11-12mins
2lb	18mins	15mins

When done, lobster will be bright red. Using lobster crackers, break shells, pick out meat, serve with warm drawn butter, and fresh lemon.

HANDLING

Live lobsters are greenish-brown when they are alive. They only turn red after they are cooked. Please do not be alarmed by the color if you have never seen a live lobster before!

Live lobsters must be handled with care. Please make sure to unpack your box carefully. Do not drop or toss lobsters.

ADD-ON For the full Maine experience, add our live lobster toolkit to your order and get authentic Maine sea salt, lobster claw crackers, lobster bibs and more!

STORAGE & SHELF LIFE

Store your lobsters in your refrigerator - we recommend clearing out a crisper drawer to hold your lobsters. Do not store your lobsters in fresh water or with ice that will melt. Fresh water will kill lobsters. We recommend you cook your lobsters on the day you receive them.

Our At-Home Lobster Roll Kits help you make our famous lobster rolls right in the comfort of your own home. Treat the family to a lobster roll night tonight!

THE AT-HOME LOBSTER ROLL KIT

Our At-Home Lobster Roll Kit includes one pound Maine lobster meat, six New England split-top rolls, and one stick of butter. Makes 4-6 rolls.

We're famous for our Maine & Connecticut style rolls, see next page for detailed preparation instructions!

We recommend our Maine & Connecticut style lobster rolls, but have fun and experiment with the family by creating your own signature lobster roll style!

INGREDIENTS

1LB Maine Lobster Meat
6 New England Split-Top Rolls
1 Stick of Butter
Mayo (you provide)
Lemon (you provide)

COOKING

Remove Maine lobster meat from packaging and let drain in a colandar for 2-3 minutes. Warm skillet over medium heat. Brush sides of rolls with melted butter and lightly toast each side until golden brown.

MAINE ROLL STYLE

Delicately line inside of toasted roll with mayo. Place chilled Maine lobster meat gently inside of each toasted roll. Serve with a lemon wedge for squeezing and enjoy!

CONNECTICUT ROLL STYLE

Bring a skillet to medium heat with melted butter. Sauté Maine lobster meat in butter for 30-45 seconds until warm. Place warmed Maine lobster meat gently inside each toasted roll, and drizzle with drawn butter and a squeeze of lemon. Enjoy!

DID YOU KNOW

The Maine roll is the most classic style lobster roll, a favorite of Mainers and purists alike. The Connecticut roll, warm and drizzled with butter, is our most popular style lobster roll.

CRAB MEAT

4

Maine's ultimate luxury. Enjoy our 4-5 oz Maine lobster tails butterflied, broiled, grilled, or steamed. 2 tails per pack.

5

MAINE LOBSTER TAILS

Thaw your lobster tails under refrigeration for 12-24 hours to avoid meat sticking to the shell. Lobster tails can be prepared in a variety of methods, from baking to broiling, to boiling, grilling and steaming. Tails can be skewered, split, butterflied, or served as is in shell.

STEAMING

Bring a pot of water with about 2 inches of water to a boil. Place tails on a steamer rack or tray, and allow to steam, about 1 minute cooking time per ounce. When done, the shell will be bright red, and the lobster meat will be opaque/white. Run tail briefly under cold water to stop the cooking process.

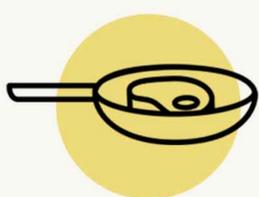

BUTTERFLY-STYLE

Place your lobster tail on a cutting board, meat side down, shell side up, positioned so the tail fins face away from you. Using kitchen shears, begin cutting down the length of the shell, ensuring you do not cut the meat. Finish the cut just short of the base of the tail, before you reach the fins.

Grab each side of the shell and gently pry the shell apart to expose the meat. Place your fingers under the meat and push upward to position the meat on top of the shell. Clean the tail by rinsing under cold water.

Dress with drawn butter and your favorite herbs and spices. Place the tails in an oven-safe skillet, or baking sheet, and bake at 375 degrees for 12-15 minutes, or until meat is no longer transparent.

TIP FROM THE MAINERS

Did you know that some lobster tails contain roe?

Roe is a greenish black substance when raw,
and red after it has been cooked.

Some consider it a delicacy,
while others rinse it away before cooking.

If you spot roe in your tails, do not panic!
It is natural and no cause for alarm.

GRILLING INSTRUCTIONS

Use a sharp knife to cut the tail in half lengthwise. Gently rinse the lobster tails under cool water and pat dry with a paper towel.

Brush melted butter with your favorite herbs and spices over the tails and set them flesh side down on the oiled cooking grates for 3 to 4 minutes.

Turn lobster tails over and cook for an additional 3 to 4 minutes or until meat is no longer transparent. Brush often with butter while cooking flesh side up.

Remove the lobster tails from the grill and let cool for a few minutes before serving. Serve with more drawn butter or a dipping sauce of your choice.

*Cook to an internal temperature of 145 degrees Fahrenheit or more.

MAINE LOBSTER MAC & CHEESE

Tender Maine lobster meat and shell pasta in a delicious creamy blend of asiago, romano, mascarpone, and sharp cheddar cheeses, with an herb panko crumb topping. 26 oz serving.

Defrost product under refrigeration. Preheat oven to 350 degrees. Remove product from box and remove inner wrap. Cook uncovered in container for about 30 minutes until product reaches an internal temperature of 165 degrees and is simmering and hot throughout. Remove from oven and let stand for 2-3 minutes before serving. Product may be cooked from frozen for 60 minutes until internal temperature reaches 165 degrees.

MAINE LOBSTER
RAVIOLIS

Our tender Maine lobster raviolis are filled with a delicious blend of Maine lobster, caramelized shallots, herbs, and a dash of ricotta and mozzarella cheeses. Each package contains 1.5lbs of Maine lobster ravioli.

COOK FROM FROZEN

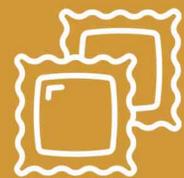

Cook Ravioli in boiling salted water (approx. 8 to 9 ravioli per 4 quarts of water). Ensure you have a vigorous, rolling boil before dropping in the ravioli.

After dropping in the ravioli, stir for 15 to 20 seconds to avoid sticking. Make sure to return water to a full rolling boil before you begin cooking time.

Do not overcrowd the pot; if the ravioli stick together, do not force apart. To prevent breakage, stir gently and allow natural movement of rolling boil to cook them until they release.

Cook Ravioli for 6 to 7 minutes until desired texture and bite. Pasta should be fully cooked until the product reaches an internal temperature of 160 degrees F.

*Please note, sauce is not included.
