# ***Fun is Fast. And it always will be.***

## ***The Kreissäge is back.***

We really like the approach of taking it easy, shifting down a gear, deep breaths, observing and feeling nature around us.

But to be honest when we are on our race bikes we just want that nature thing flying by left and right. Deep breaths should come from our hearts pumping at 190bpm and shifting down a gear should only be in preparation to drop the hammer.

The Kreissäge is an aluminium road bike frame made to go fast, brake late, hit the apex, accelerate out of turns and sprint for whatever you are sprinting for. Agile, direct, responsive, safe. Control is fast.

## DT Swiss High-End Aluminium

21 Deep | 24 Wide | 1493 Gramm  
Top end aluminium wheelset. Wide, asymmetric and lightweight rims make for an outstanding stiffness to weight ratio. With the high-end 240s based hubs this is the perfect fit for every performance road bike.

## Carbon for Comfort

The 27.2mm Zipp carbon seatpost brings comfort to the aluminium frame.

## SL-70 Ergo Handlebar

## Vittoria Corsa 28C

Four compounds in the tread (4C) for increased wear life, lower resistance and improved grip on the sides. Premium cotton casing conforms closer to the road's surface, providing a smoother ride, easier rolling, and better grip.

regular fit	race fit	regular fit	race fit	

Take these numbers as a good reference.

Fit is a very individual thing though. Every body is different and many parameters go into a perfect fit.

If you already have a bike that fits you well, comparing geometries and specs will mostly yield a good result.

We're always happy to help! Especially when you're just starting out and are quite uncertain which way to go. Call us, or go to [standert.de/pages/sizing-guide](https://standert.de/pages/sizing-guide) for in depth fit advice.
