

Marble and Stone Care Instructions

Marble and stone products are a beautiful and durable addition to any home, but they require proper care to maintain their appearance and durability. Here are some care instructions for marble and stone products:

1. **Clean spills promptly:** If a spill occurs, clean it up immediately with a clean, damp cloth. Avoid using acidic or abrasive cleaners, as they can damage the surface of the marble or stone.
2. **Avoid harsh chemicals:** Avoid using harsh chemicals or cleaners on your marble and stone products, as they can damage the surface. Stick to gentle cleaners designed specifically for marble and stone, and always follow the manufacturer's instructions.
3. **Use protective pads:** Use protective pads or coasters under hot or wet items to prevent scratches, dents, and water rings. Avoid placing heavy or sharp objects on the surface, which can scratch or chip the marble or stone.
4. **Dust regularly:** Regularly dust your marble and stone products with a soft, dry cloth to remove any dirt or debris. Avoid using abrasive cleaners or harsh chemicals, which can damage the surface.
5. **Seal as needed:** Depending on the type of marble or stone, you may need to seal it periodically to protect the surface from stains and scratches. Consult with a professional to determine if and when your marble or stone products need to be sealed.
6. **Avoid direct sunlight:** Direct sunlight can cause marble and stone products to fade or become discolored over time. If possible, position your furniture away from direct sunlight or use curtains or blinds to block the sun's rays.
7. **Professional cleaning:** Schedule a professional cleaning for your marble and stone products every 1-2 years, depending on usage. A professional cleaning will help remove any deep-set stains, dirt, or debris and help maintain the appearance and durability of your marble and stone products.

By following these care instructions, you can help maintain the beauty and durability of your marble and stone products for years to come.
