

MODEL 4000-40 CABLE WINCH-HOIST

LINE ARRANGEMENT	CAPACITY (Tons)	MINIMUM HOOK-TO-HOOK (Inches)	LIFT (Feet)	CABLE LENGTH (Feet)	MAXIMUM HANDLE PULL (Pounds)	NET WEIGHT (Pounds)
Single Line	1	23"	40'	42'	158	29-1/2
Double Line	2	29-1/2"	20'	42'	158	29-1/2

DESIGNED FOR RELIABLE OPERATION

The Lug-All Model 4000-40 uses the large frame design to provide the same lifting and pulling capacity as our other two-ton hoists, but with an improved cable length. With a 20-foot double line lift and a 40-foot single line lift, the 4000-40 features our longest working length yet.

Features

- 4,000-pound double line capacity
- 20-foot double line lift
- 2,000-pound single line capacity
- 40-foot single line lift
- Shear pin snaps audibly over 125 percent capacity to warn of overload conditions
- Open frame allows for cleaning and visual inspection
- Entire length of cable stored neatly and compactly on drum

OUR LONGEST CABLE LENGTH YET
