The world's favourite face and body paint

This design is a favourite of all little angels and is the perfect choice for Christmastime.

Using Light Grey face paint and a brush, cover the child's nose, extending upwards into a circle to create the angel's head. Then paint on the wings, sweeping the colour across the eyes and out to each side of the face.

The detailing can then begin. Using a brush, lightly apply Bright Yellow or Gold to make the angel's dress. Then add hair to the angel's head and a halo shape above it. Use Bright Pink to paint a smile on the angel's face and add definition around the angel's wings. Finish off by painting the child's lips.

Finally, add the finishing touches with Silver Glitter Gel, painting eyes on the angel's face and adding sparkle to the halo and wings, not forgetting the lips!
