

snazaroo™

The world's favourite face and body paint

Feed your little tiger's imagination with this effective and impressive design.

Using a damp sponge cover the bottom of the face from below the nose to the jaw line, with a yellow base. Then sponge the top of the face with orange paint.

Apply the white detailing with a brush. Paint a wide 'moustache' underneath the nose and across the top of the lip. Add two upside down triangles at either side of the bottom lip to create fangs. Then draw white spiky eyebrows above each eye and 3 white strokes at the corner of each eye. Add extra white strokes along the side of the cheek, just above the jaw line. Leave enough space between each line to add in more colour at the final stage.

Colour the tip of the nose black and add black strokes to the white eyebrows and at the corner of the eyes. Do the same between the white lines on the jaw line and then at the edge of the mouth and fangs. Finally paint a line from the middle of the nose to the middle of the top lip and add black dots on the white moustache. And finish with 3 whiskers on each side.
