The world's favourite face and body paint

Ahoy me hearties! Pirates are one of the easiest but most effective faces for boys.

Using Light Brown paint and a brush, paint on bushy eyebrows, a moustache and a small beard along the jawline and up to the ears.

Then with Black paint, put on a second layer over the brown, filling in any gaps. Draw an eyepatch over one eye (make sure the child keeps its eye closed) and add the string by drawing a line diagonally across the face.

Finally, with Bright Red paint, draw a scar line on one cheek, adding stitch lines across it with Black paint.
