Glitter Tattoos

MADE WITH
COSMETIC
Bio-glitter®

Create **FAB**
Glitter Tattoos!

WARNING!

Only for use by children over 8 years old.

Not suitable for children under 36 months due to small parts that may represent a choking hazard. Adult supervision is recommended. Read the instructions before use, follow them and keep them for reference. The contents of this kit are non-toxic and hypoallergenic, but we recommend testing by applying adhesive to a small area of the arm and leaving for ½ hour before applying tattoos. If the adhesive causes redness, inflammation, or soreness, wash off immediately and do not apply glitter tattoos to your skin. Do not apply glue or glitter close to the eyes or mouth. Do not swallow or inhale the glue or glitter. Use contents within 6 months of opening the individual containers. In case of an adverse reaction, wash off immediately with soap and water, and rinse the affected area well with plenty of clean water. If swallowed: Do not induce vomiting. Drink some fresh water and seek medical advice should you suffer any symptoms. In case of eye contact: Wash out eye with plenty of water, holding eye open. Seek immediate medical advice. Clean any spills with kitchen paper and clean water. Dispose of any surplus materials in the household waste.

Advice for supervising adults

This toy is for use only for children over the age of 8 years. Read and follow these instructions, the safety rules and the first aid information and keep them for reference. Incorrect use of chemicals can cause injury and damage to health. Only carry out those activities which are listed in the instructions.

Because children's abilities vary so much, even within age groups, supervising adults should exercise discretion as to which activities are suitable and safe for them.

The instructions should enable supervisors to assess any activity to establish its suitability for a particular child. The supervising adult should discuss the warnings, safety information and the possible hazards with the child or children before commencing the activities.

The area surrounding the activity should be kept clear of any obstructions and away from the storage of food. It should be well lit and ventilated and close to a water supply. The working area should be cleaned immediately after carrying out the activity.

Ingredients:

Cosmetic Glue; Aqua; Polyvinyl Alcohol (PVA); Glycerin; Polyvinylpyrrolidone (PVP); Talc; Triethanolamine; Carbomer; Phenoxyethanol; Sodium Benzoate; Titanium Dioxide (CI 77891);
Glitters: Rayon; Glycerin; Aqua; Urea; Styrene/Acrylates Copolymer;
Colourants: May contain +/- FD & C Blue No. 1 Al. Lk. (CI 42090:2); FD & C Yellow No. 5 Al. Lk. (CI 19140); D&C Red No. 7 Ca. Lk. (CI 15850:1); Aluminium (CI 77000).

Contents

28 Stencil Designs (25 sheets)

4 x Pots of Body Bio-Glitter*

1 x Pot of Glue

1 x Soft Paint Brush

1 x Stiff Paint Brush

*Eco-friendly cosmetic Bio-Glitter® designed to biodegrade quickly and safely in natural freshwater environments.

Instructions

Glitter Tattoos

Applying a Glitter Tattoo

Make sure that the area of skin to which you are applying the tattoo is clean and dry.

It is particularly important to remove any make-up or residues from oily skin creams before applying glitter tattoos.

Choose a design, and carefully peel the backing paper from the stencil.

Position the stencil on the skin, and press it gently into place, ensuring that there are no creases or air bubbles in the stencil (it is much easier to apply Glitter Tattoos to flat areas of the body than to curved areas).

Shake the glue bottle, then unscrew the lid and use the brush in the lid to apply a thin coat of the cosmetic glue to the whole cut-out area of the stencil, overlapping the glue by about 2mm onto the edges of the stencil.

Let the glue dry slightly for 30 seconds before applying the glitter.

Unscrew the lid of the pot for the chosen colour of glitter and remove the plastic insert.

Use the soft brush to pick up the particles of glitter and very gently dab these onto the glue, trying not to get glue on the brush.

See our full range of toys and gifts at:
www.playmonster.co.uk

As soon as you have covered the glue area with glitter, carefully peel the stencil off the skin, leaving the glitter tattoo behind. Do not wait for the glue to dry fully.

Top Tip:

If the edges of the tattoo start to lift with the stencil, you can dab them gently with the soft brush to make sure that the tattoo breaks neatly along the edges of the stencil.

Use the stiffer brush to gently brush away any excess glitter which may have stuck to your skin.

You can also make multi-coloured tattoos by applying glitter to a selected area of the glued stencil, then tapping the glitter off the soft brush and applying a second colour to another area. You need to have all your glitters ready before doing this, as the glue dries quite quickly!

Use the small stencils on your fingers to make ring tattoos!

Removing Glitter Tattoos

Glitter Tattoos can be washed off the skin with soap and warm water. Soaking the Glitter

Tattoo in warm water (such as in the bath or shower) for a few minutes will soften the glue and make them easier to wash off.

After removal it is a good idea to apply skin moisturiser to the area where you had the Glitter Tattoo.

Mobile Phone Holder

Included in your FabLab kit is a mobile phone holder, which lets you easily view our cool "how-to" videos packed with exciting content to discover new techniques and styles.

Simply place your phone into the holder and go to our channel at [youtube.com/fablabuk](https://www.youtube.com/fablabuk).
