

Shower Filter range

Breathe without inhaling toxic chemicals!

- ✔ Reduce up to 99% of chlorine and dangerous vapours
- ✔ Reduce up to 99% of water soluble lead, mercury, nickel, chromium and copper
- ✔ Protect your skin and lungs from harm

The exclusive zazen Shower Filter range, designed to complement any bathroom, protects you and your family against the damaging health and ageing effects of the chemicals in hot water.

The Dangers of that Hot Steamy Shower

Recent studies link excessive chlorine and chlorine vapour exposure to breast, kidney (renal) and bladder cancers. It can also cause dry irritated skin, acne and hair damage.

Chlorine is vapourised when heated. As you shower you inhale and absorb these vapours through your lungs (and skin) so these chemicals go directly into your blood stream to major organs around your body!

Make the decision to protect your health by installing a zazen Shower Filter today. Experience the difference!

zazen Shower Filter additional benefits:

- ✔ Reduce drying and irritation caused by chlorine and chemicals
- ✔ May help reduce eczema and asthma
- ✔ Improves water clarity
- ✔ Prohibit growth of bacteria, fungi and algae
- ✔ Experience natural softness to hair, scalp and skin
- ✔ Reduces soap scum and calcium build up
- ✔ **Quick and easy** to install - no plumber required!
