

MY GOOD GREEN BOKASHI PRO-GRO™

My Good Green™ Bokashi Pro-Gro is an all natural, high-quality living organic fertilizer, made from wheat bran, vitamins, minerals, and superfood. Today's technology uses harmful chemicals which strip vital nutrients and minerals from plant's which leaves the soil depleted and dry. These garden and horticultural methods require intensive labor and excessive watering which results in using more of the intended product.

Bokashi Pro-Gro™ is the solution to all your growing, horticultural, farming, and environmental needs. Bokashi Pro-Gro™ will help your plants flourish without the need for added chemicals, fertilizers, pesticides, or herbicides. Using the unique process of fermentation incorporating beneficial bacteria, yeast, or other microorganisms, your plants and fruits will be healthier and fuller in just weeks. Don't just take our word from it read what some of our happy customers had to say about Bokashi Pro-Gro™ and its many added benefits.

Approved for use in California and Oregon

Registered with the Canadian Food Inspection Agency

Testimonials

"OUR PLANTS NOW ARE AS HEALTHY AS CAN BE AND WE FIND THAT WITH BOKASHI PRO-GRO™ THEY HAVE BUILT A NATURAL IMMUNE SYSTEM TO FIGHT OFF PEST AND DISEASE AND OUR YIELD IS NOW ON PAR WITH OUR HYDROPONIC GARDENS."

- Head Medical Marijuana Grower, Consultant

"MY OUTDOOR TOMATOES AND BERRIES ARE EXPLOSIVE THIS YEAR. EVERYONE ELSE IN MY AREA ARE HALF THE SIZE."

- Stephen Paul Sealy, Consultant/Licensed Producer

Benefits of Bokashi Pro-Gro™

After a few uses of Bokashi Pro-Gro™ you will start to see a variety of benefits including vibrant and healthy looking fruits and vegetables, increased nutrients, better flavour, and a stronger crop yield. Bokashi Pro-Gro™ will also save you money on watering costs and reduce the amount of surface runoff into our environment.

MY GOOD GREEN BOKASHI PRO-GRO™

Bokashi Pro-Gro™ Suggested Applications

GARDENING (PERFECT FOR RAISED BEDS!)

- 1 cup of Bokashi Pro-Gro™ to 1 cubic ft of soil.
- Great for No-Till gardening. Utilize the benefits of mulch layers and top dressing per instructions.

CONTAINERS

Basic Bokashi Pro-Gro™ soilless mix:

- 2/3 Soilless medium
- 1/3 Perlite or Pumice for aeration
- 1 to 2 cups of Bokashi Pro-Gro™ per 10 gal.

STAND-ALONE ORGANIC FERTILIZER

- 3-4 cups of Bokashi Pro-Gro™ per 10 gal. (approx. 40 L)

MULCH LAYER

- Every square foot add 1/4 cup of Bokashi Pro-Gro™
- Add 1/3 cup minerals (e.g., carbonatite, azomite, dolomite)
- Add 1" of high-quality compost and 1" of high-quality mulch
- Apply every 2-3 weeks

TOP DRESSING

- Blend 1/4 cup of Bokashi Pro-Gro™
- Corrects deficiencies and optimizes plant growth

FOLIAR FEED

- Strain mix through a sieve or cheesecloth
- Spread remaining pulp around your plants
- Spray foliage every 2 weeks
- DO NOT spray on blooms

SOIL SOAK

- Water plants every 2 weeks using liquid organic fertilizer
- Works well as a complete lawn fertilizer
- Apply Spring and Fall

FOLIAR FEED AND SOIL SOAK

- Add 1 cup of Bokashi Pro-Gro™ to 5 gal. of water
- Add 2 tbsp of molasses or natural honey
- Mix well and aerate for 48-72 hours

Bokashi Pro-Gro™ Sizes

- Bokashi Pro-Gro™ 1.5 Kg - Organic Fertilizer small
- Bokashi Pro-Gro™ 20 Kg - Organic Fertilizer large
- Bokashi Pro-Gro™ 250 Kg - Organic Fertilizer totes
