

GMB 2nd Row Door Hinge Extension Bracket Instructions

1. Remove the existing bracket by removing the two securing bolts.

2. Remove the nut on top of the hinge check strap.

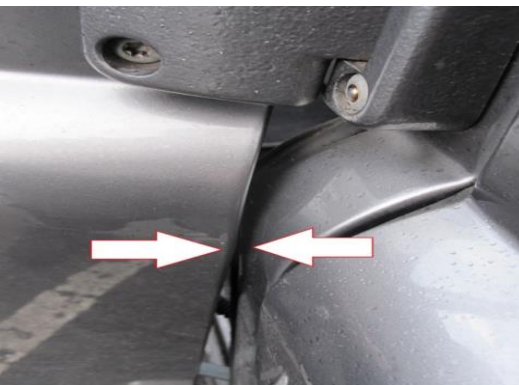

3. Use the new 13mm nut and bolt supplied for the check-strap. Tighten just enough allowing the door to open and close freely.

4. Replace the original fixing bolts. Do not tighten fully yet.

5. Before tightening the fixing bolts, check clearance on B-pillar to prevent damage to the door.

6. Tighten the two fixing bolts.
