RoHS ✓

RoHS compliance

The EC Directive 2002/95/EC restricts the use of the 6 substances in the manufacture of specified types of electrical equipment. Whilst Spafax products do not contain any of the restricted substances in concentrations and applications banned by the directive, the company recognises that RoHS compliance is relevant to many customers.

The suppliers of all raw materials used in the manufacture of Spafax products have informed the company that they are 'RoHS Compliant'. Spafax International Ltd. has taken all reasonable steps to confirm this statement. To obtain a copy of the certificate, please contact the company as below.
