

Moto-Lita Indicator Cancelling Information Sheet

All Moto-Lita bosses retain the indicator cancelling function.

36 Spline Boss

Transfer the cancellation spring clip from the back of your wheel onto the Moto-Lita boss.

48 Spline Boss

Install the supplied pair of roll pins into the back of the Moto-Lita 48 spline boss. The roll pins replicate the two prongs cast into the back of the 48 spline Land Rover wheel.

48 Spline DSC Boss

The cancelling device is contained within the Land Rover steering column. No modification is required. Align the two blue plastic prongs on the steering column with the recessed slots in the back of the Moto-Lita DSC boss.
