care information

if your product is damaged in any way, or you're not sure how to use it, please consult our web support team (mountainbuggy.com/support).

caring for +one™

- fabrics can be sponge cleaned with warm water, using a mild natural soap. do not use detergents or bleach.
- improper care will void any warranties. do not use the +one™ if deterioration is detected or suspected.

important information

tyres and tubes

- the valve is car-size. manually inflate to 20 – 22psi max. releasing air gives a softer ride but lower pressure reduces tread life.
- tyres and tubes are not under warranty. do not over inflate. tyre pressure is affected by heat especially when inside parked cars.

for more information on caring for your product, visit **mountainbuggy.com/support**
