

Universal Mirror

Assembly instructions MM3000

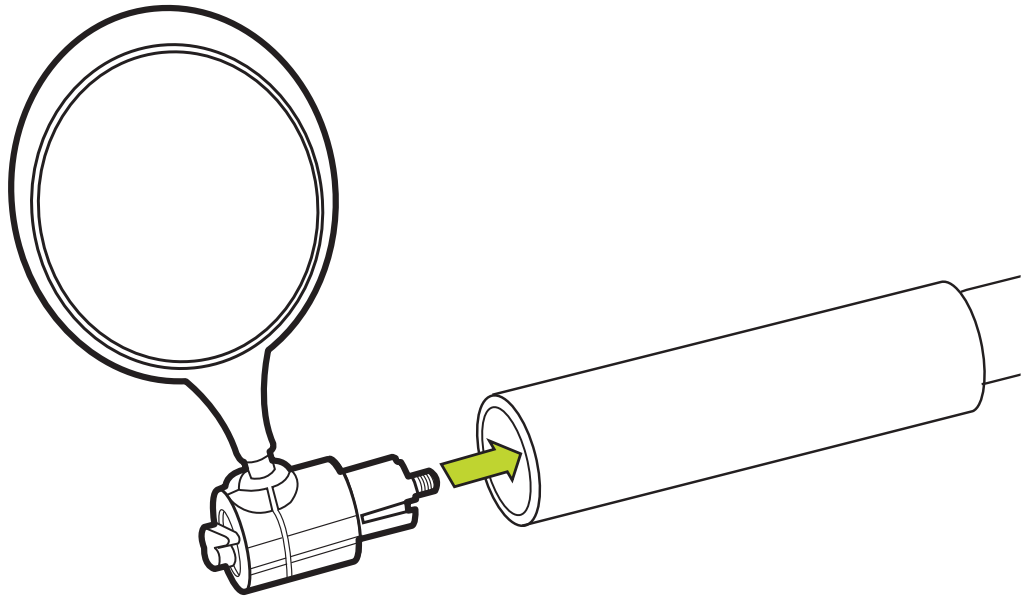

1 For bars that have a plug inserted:

Remove plug from the left side of the bar.

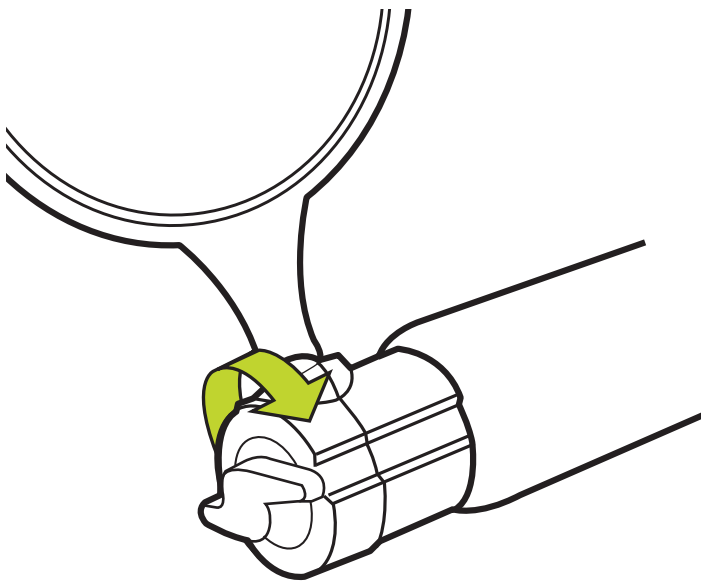

For bars with grips with no plugs:

remove grip material from end of the bar. Careful to remove the least amount of material possible.

2 Insert end of mirror with expanding bolt into the end of bar.

3 Twist knob on mirror clockwise to tighten the expanding bolt securing the mirror to the bar.

4 Adjust the mirror to your preferred location for the best viewing position.
