## **care information**

for safety reasons, please check your juno and infant insert for any signs of damage before use. if the fabric is torn, the seams ripped or the fastenings flawed, please consult our web support ([mountainbuggy.com/support](http://mountainbuggy.com/support)). from here you can contact a local customer team member.

### ***caring for juno™ and infant insert***

- fabrics are best sponge cleaned or hand washed with warm water using a mild, natural soap.
- juno™ and the infant insert can also be machine washed on a cold, gentle cycle. however, please keep in mind that when machine washed, some colours may fade.
- dry your juno™ and infant insert thoroughly before storing. store in a well ventilated space away from direct sunlight, which could damage or fade the fabrics.
- always line dry your juno and infant insert. do not wring. do not tumble dry. do not use any solvent or bleach based products, as these may harm the fabrics.

## important information

- juno™ can be worn as a front face in, front face out, back or hip carrier.
- it's important to fit your child correctly when using juno™. make sure that your child has: clear airways, is carried firmly against you, has the recommended leg positioning and is close enough to kiss.
- it is recommended that the infant insert and the front face in carry mode are used for newborns from 3.5–6.5kg / 7.7–14.3lbs.
