

# TTP880SP & DP

## Heavy Duty Sleeves

The TTP880 is a tubular knitted sleeve with thumb slot for a secure fit. The sleeve is offered in a **SP (Single Ply)** and a **DP (Dual-Ply)** construction for varying cut protection needs.

With a combination of comfort, a high degree of cut resistance (ANSI 105:2016) level A4 (SP) and level A7 (DP) and inherently flame resistance materials, the TTP880 is an excellent form of arm protection for automotive and other assembly environments, metal fabrication, stamping, glass handling, packaging and any material handling application.

A unique built in elastic area to the top of the arm prevents the sleeve from falling down without the need for additional clips or Velcro and a thumb slot keeps the sleeve securely in place.

### Product Specifications

Product Code	TTP880SP TTP880DP
Sizes	12", 14", 18", 20", 22", 24"
Base	Tilsatec – RhinoYarn®
Construction	Tube Knit
Cuff/Wrist	Integrated knit wrist with thumb slot
Origin	USA

### Packaging

Case Quantity	200 each per case
Internal Packaging	10 per bundle

### Performance

<b>SP</b> <b>Single-Ply</b>	ANSI 105: 2016	EN388: 2003	 
	 <b>A4</b> CUT	 <b>153X</b>	
<b>DP</b> <b>Dual-Ply</b>	ANSI 105: 2016	EN407: 2004	
	 <b>A7</b> CUT	 <b>X1XXXX</b>	

### Available Lengths

12", 14", 18", 20", 22", 24"

**\*\*Custom lengths and finishes available**

**Available in Reg & Jumbo Widths**

Made with Tilsatec Rhino Yarn technology. Produced in the UK and developed by Tilsatec's specialist team of yarn technologists to deliver the optimum in performance and comfort.
