

TTP045MF

Lightweight cut resistant foam nitrile palm coated glove with reinforced padded palm

The 045 is one of the thinnest, lightest ANSI cut level A6 gloves on the market. The fine 15-gauge breathable shell has a form fitting, ergonomic shape making the glove feel incredibly light and comfortable.

A breathable nitrile micro-foam palm coating provides good grip in both dry and oily environments, while retaining a high degree of tactility and touch sensitivity.

The 045 is ideal for small assembly and handling of small parts as well as climbing and scaffold work

The glove is also antistatic and touch screen compatible.

Product Specifications

Product Name	TTP
Product Codes	045MF 045MF-LFP1 (USA Mod)
Sizes	6 (XS) – 13(4XL)
Glove Base	Tilsatec – RhinoYarn®
