

Tobias Nesting Table

Gus*

FINISH > Walnut or Blonde Ash
BASE > Powder Coated Steel Base

The Tobias Nesting Table is a minimalist, geometric accent piece well suited for modern spaces. The top features a dynamic arrangement of wood grain panels, which rest on a slim, solid steel base. A subtle reveal along the table edge creates the illusion of a floating top. The table is designed to nest into your sectional or sofa to create a handy surface for your snacks or smart devices.
