

# Tobias Console Table

Gus\*

**FINISH** > Walnut or Blonde Ash

**BASE** > Powder Coated Steel

The Tobias Console Table is a minimalist, geometric accent piece well suited for modern spaces. The rectangular top features a dynamic arrangement of wood grain panels, which rest on a slim, solid steel base. A subtle reveal along the table edge creates the illusion of a floating top. The table features an inset shelf for additional storage space, and a metal side extension that offers space-saving storage solutions for umbrellas and accessories. The table, slender, compact form is perfect for entryways and other smaller spaces where every square foot counts.
