

Leo

Soft and playful, Leo is hand woven using New Zealand wool. Inspired by the playful spots of the Leopard, Leo is hand knotted in India and made of hand spun semi-worsted 100% New Zealand wool.

Product Details

Pile Composition 100% New Zealand Wool
 Warp/Base Composition Cotton
 Manufacture Details Hand knotted - Persian Knot
 Country of Origin India
 Pile Height 10 mm
 Custom Production Lead-time 16 - 20 weeks + freight lead time
 Suitability Indoor, residential & light commercial
 Size 200 x 300 cm, 250 x 350 cm, 300 x 400 cm, custom sizes available
 (Maximum size upon inquiry)
 79 x 118", 98 x 138", 118 x 157", custom sizes available

Available Colours

Ash

Care Instructions

Spot Cleaning

Treat any liquid spills immediately. Place a clean cloth or unprinted paper towel directly on the liquid to absorb the spill. Following this use a clean cloth, dampened with water and dab the affected area, do not follow a circular motion, simply dab and blot. Absorb any excess moisture after cleaning with a clean dry cloth or towel. For dirt marks, such as soil, simply allow the soil to dry and vacuum. If spills or marks remain, contact a professional rug cleaning specialist.

Professional Cleaning

After time your rug will require professional cleaning. Any persistent or large stains will also require professional cleaning. Do NOT dry clean or steam clean rugs. Each Jordan rug is unique, and made of different fibres, we recommend contacting a professional rug cleaner who specialises in hand made rugs or contact Jordan for a recommended specialist cleaner.

Shedding & Lose Fibres

All rugs may shed and have loose fibres. Shedding will take place mostly in the 1-6 months of the rugs lifetime, but will slow over time. High traffic areas may always have a small amount of shedding. Simply vacuum any shedding fibres. For loose threads or ends - do not pull, simply clip them carefully with fabric scissors.

Care & Maintenance

The positioning of your rug will have an effect on the longevity and appearance of your rug over time. Avoid direct and continuous exposure to sunlight. Vacuum regularly to prevent dust and crumbs from settling into the pile. Rotate rug occasionally to equalize wear.
