Air Conditioning & Heating

## COMPACT, ALL-IN-ONE UNITS HELP SAVE VALUABLE SPACE

Keep your family in energy-efficient comfort for years to come. The Goodman® brand GPC14H Packaged Air Conditioners and GPH14H Packaged Heat Pumps provide value and indoor comfort to homeowners and small businesses while helping to lower energy bills as compared to lower SEER units.

## COMFORT. SAVINGS. PERFORMANCE.

Goodman brand packaged units sit on the ground or rooftop outside your home or business and deliver quiet, year-round cooling and heating comfort from a single, self-contained unit. The energy efficient Goodman brand GPH14H Packaged Unit operates as an air conditioner during the summer and in winter delivers electric or heat pump-generated warmth.

### EXCEPTIONAL QUALITY

You can depend on well-designed, top-quality, thoroughly tested products.

Our production facilities are focused on strict, quality-driven processes. This quality focus ensures a trouble-free installation and long product life.

### RELIABILITY AND LONG LIFE

One of the most critical components of a packaged air conditioner or heat pump unit is the compressor. Our GPC14H/GPH14H Packaged Air Conditioners and Heat Pumps boast high-performance, high-efficiency compressors, which operate in tandem with our high-efficiency coil. The coil is made of refrigeration-grade copper tubing and aluminum fins in a design that maximizes surface area. These high-quality components together cool your home effectively while saving you money on energy bills as compared to lower SEER units.
