GAUGE:

Square = 1 1/2 in. (4 cm). BE SURE TO CHECK YOUR GAUGE. When you match the gauge in a pattern, your project will be the size specified in the pattern and the materials specified in the pattern will be sufficient. If it takes you less stitches and rows to make a 4 in. [10 cm] square, try using a smaller size hook or needles; if more stitches and rows, try a larger size hook or needles.

NOTES:

Eight squares are worked for the first row of this afghan. Squares for the following rows are worked and joined as you go.
