

MICROSPUN Chenille Thick & Quick Simply Plush Picture Frames

(approx. 1 hour per frame) You can easily transform old or new frames into very beautiful works of art. You can also cut your own frame from any thick piece of cardboard. All you do is wrap Lion Brand Chenille Thick & Quick® yarn around them, then personalize them, by gluing fun things that apply to the frame you are covering.

Personalizing frames can be a lot of fun. We have used ribbon and ribbon appliques to decorate ours.

These frames take very little time and make great gifts. Have fun!

Materials:

One 100 yd. skein of Lion Brand Art. #950 Chenille Thick & Quick Yarn

New or old frames or stiff cardboard cut to shape

Glue or glue gun

Scissors

*Decorative items to personalize your frame

Instructions:

1. Begin on the bottom of the frame and carefully and evenly wrap yarn around and around it. Glue the yarn securely where you start and end your wrapping.

2. If you have made your own frame, glue a piece of cardboard to the back leaving one edge open to slide your picture between.

Every effort has been made to have craft instructions accurate and complete. We cannot be responsible for variance of individual crafters, human errors, or typographical mistakes. * Caution: Small objects may present a choking hazard to young children.
