GAUGE

12 sts + 14 rows = 4 in. (10 cm) over Ladder st using larger needles.

When you match the gauge in a pattern, your project will be the size specified in the pattern and the materials specified in the pattern will be sufficient. The needle or hook size called for in the pattern is based on what the designer used, but it is not unusual for gauge to vary from person to person. If it takes you fewer stitches and rows to make your swatch, try using a smaller size hook or needles; if more stitches and rows, try a larger size hook or needles.

NOTES:

1. Pullover is worked in 4 pieces, Back, Front, and 2 Sleeves.
2. Pieces are worked in cable patterns and with raglan shaping.
3. Stitches are picked up around neck to work the neckband.
4. When you see '– 12 sts' in the instructions, this lets you know how many sts you will have at the end of that specific row.

Note: The following corrections have been incorporated into the pattern below. We are highlighting the corrections separately here so that if you have printed out an earlier version of the pattern you'll know what was changed.
