NOTES on colors, row sequence, and construction: Each Basic Square is made up of Black + a DarkShade and a Light Shade of one color:

G squares (Green squares): L (Light Green) #130 Green Heather D (Dark Green) #132 Hunter Green

B (Black)

D (Dark Violet) #145 Plum

V squares (Violet squares): L (Light Violet) #144 Grape Heather

B (Black)

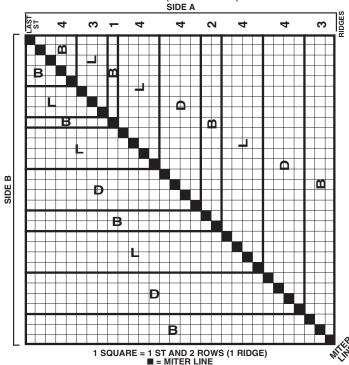

P squares (Pink squares):

D (Dark Pink) #139 Dark Rose Heather

L (Light Pink) #140 Rose Heather B (Black)

Each Basic Square is worked in garter st (k every row) and is constructed in the color/ridge sequence in Diagram A. Two rows of garter st = one ridge. The cast on row (or pick-up row used when joining squares) plus the first WS row form the first ridge. Thereafter, a ridge is formed by knitting one RS row and one WS row. Color changes are always made on RS rows. Each square in Diagram A represents one stitch (horizontally) and one ridge (vertically). THERE-FORE, the first 3 ridges (squares) in Black represent 6 rows. The last st of each square is either fastened off (by cutting yarn and pulling it through the last loop), or by placing the last st on a pin. The instructions will specify which to do. Shawl/Throw is made up of 24 Basic Squares. Each one is labeled in Diagram B with a letter (according to color) and a number. Diagram B indicates how the piece is constructed together as you work, referring to Side A and Side B of Basic Squares (see Diagram A). Refer to diagrams as you knit.

DIAGRAM A (BASIC SQUARE)

BASIC SQUARE: Cast on 29 + 1 + 29 sts (59 sts total). The middle st becomes the line of the mitre which is formed by working a double decrease (DD) on every WS row as follows: **DD** (double decrease): Knit 3 sts together through back loop.

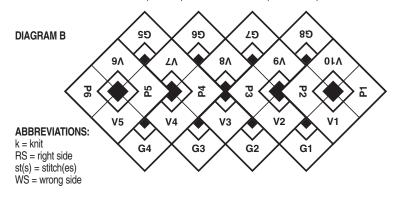

Next row (WS): K28, DD, k27, slip last st as if to purl with yarn in front. First ridge has now been formed. Next row (RS): K to last st, slip last st as if to purl with yarn in front. Next row (WS): K27, DD, k26, slip last st as if to purl with yarn in front. Second ridge has now been formed. Repeat last 2 rows in this manner, having one less st on either side of mitre every RS row, and working the DD every WS row. When 3 sts remain, work the RS row as usual and work the WS row as only the DD. Either fasten off last st or put it on a pin (instructions will specify which is used). Follow Diagram A for ridge/color sequence.
