GAUGE:

Exact gauge is not essential to this project.

NECKLACE

General Instructions for Beads

Note: Beads are wrapped horizontally, do not take the GLITTERSPUN® through the bead hole when wrapping.

Apply a small amount of glue inside the bead hole, glue one end of GLITTERSPUN® into bead hole. Allow to dry.

Apply glue to a small section of bead and wrap beads horizontally with GLITTERSPUN®. Continue to apply glue and wrap with GLITTERSPUN® until you reach the opposite end of bead and the bead is completely covered.

Trim GLITTERSPUN® and glue end inside the bead hole.

Allow to dry.

Following General Instructions, wrap 1 large and 2 small beads with B, 2 large and 2 small beads with C and 2 large and 2 small beads with A.

Allow to dry.

Cut three 1 yd. (1 m) lengths of D. Knot strands together at one end. Braid strands for about 6 in. (15 cm), then knot. Thread all 3 strands into blunt needle.

Draw threaded needle through small A bead, then knot the D strands close to bead.

Continue to string beads, knotting the D strands after each bead, in this order: small C, small B, large A, large C, large B, large C, large A, small B, small C and small A.

When all beads have been strung, braid the 3 strands of D for about 6 in. (15 cm) or to desired length (try the necklace on to determine the best length for you). Knot strands together. Fold each end of braided strands over a jump ring. With sewing needle and thread, sew end of strands to secure.

Attach half of clasp to each jump ring.

Every effort has been made to have the knitting and crochet instructions accurate and complete. We cannot be responsible for variance of individual knitters and crocheters, human errors, or typographical mistakes.
